CITY COUNCIL

The regular meeting of the City Council was held on Monday evening, with His Worship Mayor W. E. Lord in the chair, and Ald. Galbraith, Collison, Broughton, Stone, Moyes and Simpson in attendance.

CORRESPONDENCE.

Geo. Gunn wrote stating that in going up Michener Hill he slipped on the sidewalk and ruined his coat. He asked for compensation.

The Minister of Municipalities wrote asking that the municipality send cheques for money payable to that department payable at par in Edmonton.

The Council thought it pretty small business for the government to tax the people and then make them send the money free to Edmonton.

The Compensation Board wrote explaining the questions asked by the Commissioners re carrying out of the Act.

The auditors reported the books audited and everything in order.

The School Lands Division Dominion Lands Branch Department of the Interior wrote that the amount necessary to complete purchase of S.W. ¼ 29-38-27, W. of 4th, amounted to $1633.36, owing to April, with interest at 7 per cent. from that date, together with the balance of purchase price, $309.04, amounting in all to $1965.25.

Prof. L. J. F. Stromsk wrote from Seattle that the manner in which Commissioner Stephenson had conducted the complicated condition of the Depot addition lots was a credit to the department as well as himself. It shows good judgment on the part of the citizens who secured his services, says the professor.

COMMISSIONERS' REPORT.

The Council, City of Red Deer.

Gentlemen: We recommend that tenders be called for $60,000 of the recent issue of Treasury Bills up to July 10th, lowest or any tenders not necessarily accepted. His Worship the Mayor and to appear before the Board of Utility Commissioners before approval was granted for the selling of the above amount.

2. Foreman Jones has commenced building the cinder walks and doing Street grading with the city team when the team is available.

3. Chief of Police Anderson, who was granted leave of absence by the Council on his enlistment in the 187th Battalion, has returned to duty last week. We have placed Jesse Halstead in charge of the cemetery, parks and boulevards and he has been trimming the trees on the boulevards this week. Mr. Halstead, while acting chief of police, gave good faithful service, especially during the trying period of the flu epidemic.

4. The swings and teeters on the City square are much used by the children and it might be well to consider building additional playground apparatus there. Waskasoo Park is also used by many of the citizens, and we believe would be more used if all the citizens knew its beauties. We will report later on the advisability of extending the driveway through the park and making an additional entrance from the A.C.R. road.

5. Mr. Martin, Commissioner to adjust Flu Epidemic accounts held a sitting in Red Deer on the 20th inst., and adjusted the account to our satisfaction so far.

He also is Commissioner re Cancellation of Sub-divisions, and we showed him some of the sub-divisions we wish to have cancelled and received advice as to procedure. We will proceed with this matter as soon as possible, and in the meantime we ask your authority to arrange for exchanges of lots in Eastwood and Grandview Park addition, as far as possible by arrangement.

6. We have inspected the Exhibition grounds and buildings with Alderman Galbraith, representing the Exhibition Society, and the alterations asked for by him are all minor, and can be done at a cost of about $50.00 We ask your authority to have this done.

7. We submit application from Geo. Gunn re. damages to suit of clothes caused by slipping on sidewalk on Michener Hill, and recommend that $10.00 be paid in full settlement of claim.

8. We submit regulations under Workman's Compensation Board re Medical Contracts. It does not appear practicable to make such an arrangement for City employees. We would ask your instructions as to whether the reduction from wages would be made, or if the City will pay assessments levied from workmen by the Board.

9. We have prepared as far as possible at this time a register of Soldiers' Home properties subject to tax exemption and a register of other lands owned by soldiers on which penalties on arrears will be rebated.

10. We have ordered 300 more certificates for presentation to returned soldiers and will have them completed as soon as lists can be completed of those entitled to receive them.

11. We submit accounts for your authorization to pay.

All of which is respectfully submitted.

W. E. LORD.
A. T. STEPHENSON,
Commissioners.

Clause 7 was referred back.

In clause 8 the word 'contract' was deleted.

Committee rose and adopted the report.

Payment of the following accounts was authorized:

Wage Sheet	$ 23.00
Dept. of Interior	1965.25
Royal Bank	393.79
Imperial Bank	2808.40
Western Gen. Elec. Co.	17.00
Workmen's Comp. Board	5.00
Castle & Reed	38.12
J. Halstead	6.00
H. G. Stone	10.10
Bank of Montreal	722.16
Imperial Bank	925.42
Bank of Montreal	1225.96
Baldwin, Dow & Bowman	105.00
Gorman Clancy & Grindley	29.80
City of Red Deer	26.40
E. A. Anderson	10.00

A deputation from the Agricultural Society addressed the Council with regard to building an addition to the grandstand at the Exhibition grounds.

D. McKinnon was the first speaker. He said the society had heard from Mr. Michener and Mr. J. Day, that a grant of $2,500 which had not been paid for 1917 was going to be paid the society, and the society felt that they should enlarge the grandstand and wanted to discuss the question with the Council. He had been speaking to Mr. Dawe, and that gentleman could put an addition on for $1,050, enlarging the grandstand about one-third, but the stand would not be enclosed. He favored having the work done by the city, and he would favor handing $1,050 to the city for the work. The roof would be a temporary roof. The enlargement would probably give the Society an increase of revenue amounting to about $300 a year.

Engineer Dawe had worked out a number of plans of construction which he discussed with the Council. A permanent and complete addition to the grandstand could be built for $2,040. Another for $1,050 he rather favored as it would accommodate the people, be safe, and yet would not cost more than half what the first proposition would cost. He also spoke of another smaller plan to cost $500.

Ex-Mayor G. W. Smith said he had only learned that day of the movement to enlarge the grandstand. He favored the suggestion of enlarging the present grandstand some 21 feet to cost $1050, and he felt the Society would put up this amount of money, and if the city would add about $150 to put on siding, a good job would be done.

Mr. Kenny said the proposed item in the Society coming to the Council was that the property belongs to the City, and felt that there should be some recognition from the city on this construction of buildings. By the bleacher system the same money expended would seat about twice as many as the completed building of $1050, which would only seat a little over 200. He thought the city was not doing much for the society at present, compared to some other places, and he hoped the Council would help them out.

The Mayor said it was a mistake to think the city was not doing much for the fair, as we were paying a heavy debenture debt, insurance and other things that cost the city considerable, probably three or four thousand dollars a year.

Ald. Galbraith said he was surprised at the stand taken by the Mayor. He said if we wish a successful fair we must back it up. All the places where a fair is a success was backed by the Council. Calgary spent $40,000, Camrose $4,000 and other places spent thousands on their fair. We must back up the fair or let it go down. He sometimes thought it might be well to let it go down for a time. But it might be hard to get it up again. He felt the Fair should be helped as the Hospital is helped, and other institutions, such as the schools. The city derives benefit from the Fair; it was the city they were working for. The Fair had reached the stage in the province where it had to receive the strong support of the city and all its citizens.

Ald. Moyes suggested that a special meeting of the Council be called for Thursday morning to discuss this question with the Agricultural Society.

Ald. Collison said we all agreed with Ald. Galbraith that it was a hard task to carry on the Fair, but he did not agree with him that it was in the same class as the hospital and the schools. We are faced with a grave responsibility in the shortage of a large sum in city financing this year, and he felt we must save every possible cent in expenditure at the present time. He was willing for the Agricultural Society to go on and build any structure they want so long as they build it safe. He hadn't much use for the Midway, and while he liked horse-racing, he did not think we should spend much money on it.

Alderman Simpson said he felt the request of the Agricultural Society was eminently fit and just. He favored letting the Society build any building they wished so long as they paid for it. He said so far as he could find out every time the Agricultural Society had come to the Council they had been courteously received and their requests granted. He felt there was no comparison between the hospital and schools and the Agricultural Society. We were obliged to borrow money by debentures to pay for building our schools and educating our children, and we will have to pay for the next ten years, and it is worth it. He was strongly opposed to certain features of the Midway show and he favored cutting it out.

Ald. Broughton and Moyes moved that the Agricultural Society directors be authorized to erect an addition to the grand stand 24 feet on the general lines of construction of the present grand stand. Carried.

Red Deer, June 23, 1919.

Special report on letter from Councillor Stewart of Pine Lake Municipal District.

We recommend that the City pay $100.00 towards the cost of gravelling roads mentioned in the letter, providing Mr. Stewart will extend the gravelling down the Michener Hill to the bad sunken spot in the road, and on the understanding that the main road from the north will be extended one block south of where it turns west at present and connected with the east and west road now to be graveled.

Respectfully submitted,

W. E. Lord,
A. T. Stephenson,
Commissioners.

Ald. Collison spoke of the great need at the hospital for a comfortable rest room for the nurses' comfort. Their work at times is very strenuous, and we who have comfortable homes are apt to forget the nurses who are doing so much for suffering humanity and the lack of real home comforts they have.

The Council agreed with Ald. Collison, and they will try to formulate by next meeting some plan for the benefit of the nurses to make their life more comfortable in their spare moments.

The Council adjourned at 11.45 o'clock.

FAIR NOTES.

The prize lists for the Red Deer Victory Fair are now ready. Get a copy today from the secretary, J. E. Welton, first door east of the Bank of Montreal.

Help the Fair management by getting your entries in early.

There will be no entrance fee charged exhibitors in the Children's classes, but in all other classes the entrance fee will be 10 per cent of the first prize.

The Clearview Women's Institute have very kindly offered the following special prize:

No. 766a. Best cake and loaf of bread from the Red Deer district, $5

The Robin Hood Milling Co. offer the following Special Prize:

No. 766b. Best loaf of bread made from Robin Hood Flour by non-professional, entry to be accompanied by late sales slip showing flour to have been purchased from the W. R. Lord Co., Ltd., local agents for Robin Hood Flour:

1st prize—2 98lb. sacks R.H. Flour
2nd prize—1 98lb. sack R.H. Flour
3rd prize—1 49lb. sack R.H. Flour

The prizes donated by the Manning-Sutherland Lumber Co. (No. 712) and the Women's Institute (No. 744) should be interchanged owing to an error in the compilation of the Prize List.

Mr. Alex Milne offers a Special Prize of $10.00 for the best colt sired by his stallion "Citizen's Best." The entry number in the prize list will be 12a.

CONDOR.

A most enjoyable evening was spent at the wedding reception of Mr. and Mrs. Frank Barton at the home of the former's parents, Mr. and Mrs. Sam Barton, on Thursday evening, June 19th, 1919.

After the guests were assembled, the pleasures of the evening commenced with the Grand March, during which the happy young couple were encircled by the guests and given three rousing cheers, to which the groom responded. Dancing and games were indulged in, and an elaborate lunch was served. The bride's cake was served by the bride herself.

The bridal couple were the recipients of many beautiful and useful presents. The groom is one of the well known boys who went overseas with the 89th battalion, and while in England met his charming young bride. We are glad they intend making their home in our vicinity. May prosperity be theirs.

MRS. MONEYPENNY DEAD.

The News received word from Mrs. Frank Michener, on Monday last, from St. Catharines, Ont., that her mother, Mrs. David Moneypenny had passed away on Monday, June 16th, at the Wellandra hospital in that city. Mr. Moneypenny died some five or six years ago, and two years ago deceased moved to Ontario, where Mrs. Michener has been with her a good part of the time. A year ago last March she had a stroke and since that time has had several more, finally passing away, being perfectly helpless at the last. Mrs. Michener's many friends in Red Deer sympathize with her in the loss of her mother.

GERMAN FLEET SUNK BY CREWS AT SCAPA FLOW

ALL BATTLESHIPS AND BATTLE CRUISERS EXCEPTING THE BADEN ARE SUBMERGED.

London, June 21.—The German officers and sailors, forming the complements of the German ships interned at Scapa Flow, sunk most of their fleet today. All the big ships, battle ships and battle cruisers, excepting the Baden and numerous smaller craft, were sunk, while others went ashore in a half sunken condition.

Eighteen destroyers were beached by tugs, four still are afloat, while the remainder went under. The wholesale sinking of the German ships, which came to Scapa Flow to surrender under the terms of the armistice, was carefully arranged by the officers and crews. All explosives had been removed and, therefore, the only means of destroying the fleet was by opening the sea cocks. The ships went slowly down with the German flag, which the crews had hoisted, showing at the mastheads.

CREWS MAKE FOR SHORE

The crews, composed entirely of Germans, under the terms of the armistice which did not permit of British guards aboard, took to the boats when the vessels began to sink. While making for the shore, the boats were challenged and called upon to surrender. Some of them ignored the summons and were fired upon, a few casualties resulting.

This stroke apparently was an entire surprise and the first news reached London through a correspondent who was informed by farmers in the neighborhood that they had seen the German ships sinking, with their flags aloft.

STORY FIRST DENIED

The German officers and crews have been made prisoners. None of the officials tonight would offer an opinion as to how they are to be dealt with. The Admiralty at first denied the report, but later confirmed it, and issued an official statement. The statement says:

"According to the latest reports from Scapa Flow, all the interned battleships and battle cruisers have been sunk, except the battleship Baden which is still afloat.

"Five light cruisers have sunk, but 3 have been beached. Eighteen destroyers were beached by local tugs.

"Four destroyers are still afloat. The rest of the destroyers have sunk.

"A German rear-admiral and most of the Germans from the ships are now in custody aboard British ships. Some boats from the ships refused to stop when ordered and were fired upon. A small number of Germans were killed or wounded.

"In accordance with the terms of the armistice, the German ships were interned, with skeleton crews as caretakers and without British guards aboard."

The first news of the sinking of the German fleet was contained in a Thurso despatch to the Exchange Telegraph Company.

Early in the afternoon a report was circled by the Exchange Telegraph Co., that virtually the whole German Fleet at Scapa Flow had been sunk, but a few minutes later the news agency asked that the despatch be cancelled.

A later despatch by the Associated Press from Thurso said:

"The hoisting of the red flag at noon was the signal for the crews to scuttle the German ships in Scapa Flow. The crews took to the boats and rowed toward the guard ships. The guardships fired at the Germans who jumped and swam ashore, where they were rounded."

PHOTOPLAY A MORAL EPIC

After seeing the great photoplay, 'Enlighten Thy Daughter,' I came to the conclusion that it well deserves to be called the "most tremendous moral force the screen has ever shown."

The hypercritical might possibly find fault with the picture on the score of its directness and flatfootedness, but it is no more direct or flatfooted than is life itself. The things it deals with are actual, everyday facts in this human life of ours, and taking those facts the picture shows us what to do with them.

It shows up the dangers, and tells us how to avoid them; it shows us, through the tangled labyrinth of life, the one straight path that leads safely through the snares and pitfalls, to the sunny uplands of peace and honor.

The picture is immense, to say it all in a word—and may it meet with the full measure of success that it so richly deserves when it is shown on the Lyric screen on Thursday and Friday of this week.

GERMANY WILL SIGN

The German National Assembly Monday afternoon voted to sign the peace terms unconditionally. The signing will take place Thursday or Friday.

OUR RETURNING VETERANS

Pte. Gordon McIlwraith arrived in Red Deer on Saturday evening's train. Gordon went overseas with the 89th battalion, and served with a machine gun battalion in France. After looking up old friends in town, he left on the evening train on Monday for his home in Edmonton.

Pte. J. C. Cort and G. W. Ball, two old 89th men, returned to Red Deer on Tuesday morning, and are leaving today for their homesteads at Rocky Mountain House. Pte. Cort served with a machine gun battalion in France, and Pte. Ball with the 2nd Canadian Divisional Train, 3 Co., A.S.C.

Bugler Arthur E. Hadley, formerly of the 187th, who returned three weeks ago from Siberia, where he has been with the Siberian Expeditionary force since Christmas, left Monday for Calgary where he has secured a good position with Sergt. Major Harvey.

Sergt. John Piper returned on Friday last from overseas. He joined up with the 66th battalion, Edmonton, and was in some of the fiercest fighting of the war. He was gassed and wounded and the men fought over and around him for hours in the pouring rain. For many months he was in hospital, and on recovery he was not fit to go back to the front, but helped in hospital work. He looks well, and it is hoped the gas will eventually leave no bad effects in his system.

Sergt. H. J. Snell returned to Red Deer on Thursday last week, and is being greeted by his numerous friends in the city. He is one of Red Deer's business men who joined up with the 89th battalion, but owing to a physical defect was not allowed to go to France, although he tried to do so. He reverted to the rank of private and was placed in the Ordnance Department, and by sheer merit worked his way to the position of superintending clerk and won his stripes back again, and was given the medal for meritorious services rendered. Mrs. Snell went to Calgary to meet him.

Sergt. James Mann, who went overseas as Company Q.M.S. of the 187th battalion, and was transferred to the 50th, Col. Page's battalion, returned to Red Deer last week, after visiting friends in the East. He is looking well, and his old friends are glad to see him back.

Pte. Sidney Whitlow, fighting with the 50th, arrived home recently after eight years' service overseas. Mr. Fred Whitlow, his father, Red Deer West, who has been with Headquarters, Calgary, arrived in also. Both have given long service.

Pte. Fred. O'Connor, Hillsdown, of the Canadian Third Division, returned a few days ago after serving three years overseas, most of it in the fighting line. He is looking well.

Pte. H. H. Good, who went over with the 66th battalion, afterwards in the 8th battalion, returned to Red Deer and was warmly greeted by friends a few days ago.

Sergt. David Wright returned from overseas on Thursday last and is being greeted by his numerous friends. He joined up with the 66th Edmonton battalion and was transferred to the 49th, where he saw some hot fighting. He was wounded in the right shoulder, but is looking well.

THEIR DUTY DONE.

Mr. Broughton showed us a copy of the Grimsby News which has a large drawing of a cemetery designed by the Imperial War Graves Commission for the British dead in France. Beside the graves, with their plain uniform headstones, it encloses the Cross of Sacrifice, an altar-like stone of remembrance, and a crypt containing a register of the men who are buried there. In each cemetery will be planted English flowers and shrubs.

CHURCH NOTICES.

Knox Church, June 29th, public worship at the usual hours. The subject of study in the morning will be, "The life story of a man whose creed was: 'To-day is more important than tomorrow.'" The evening worship will take the form of a special service of thanksgiving to God for the safe return of so many men who went out from the Church on active service for king and country. Sabbath school at 3 o'clock.

Services in the Nazarene Church next Sunday as usual. Sunday school at 10 a.m., preaching at 11 a.m. and 7.30 p.m. Rev. A. C. Metcalf will speak at both services. This will be the last Sunday in the Church before the Camp Meeting. Everyone is cordially invited. A. C. Metcalf will also conduct services at Sylvan Lake next Sunday at 3 p.m. Everyone is invited. Take your vacation July 4 to 13 and attend every service at the camp meeting. There will be good music, good singing, and good preaching. Watch for further announcements.

SPORTING NOTES

FOOTBALL.

The football match last Friday between the Veterans and the School was the best game seen so far this season. From the start the veterans made things warm for the school, and their efforts were rewarded by a goal before the interval. After the cross over the School attempted to play the one-back game, with the result that for about a quarter of an hour their opponents were all round them and notched three goals in quick succession. Considerable feeling crept into the game which was fast right up to the closing stages. The Veterans won by four goals to one.

The game on Monday between the School and the Fire Brigade proved to be the very opposite, and a more tame exhibition it was difficult to imagine. Neither team seemed to have the energy to finish any of their attempts to score, and the interval came with no score on the board. After the rest the school infused a little more energy and managed to get in a couple of goals, while the Firemen were unable to get any result of their labors. The school won by two goals to nothing.

Red Deer Citizens' Cup will be played for on Tuesday, July 1st, and two teams have been picked to play trial matches in order to pick a team to meet Calgary C.P.R. for the cup on Tuesday. The line up for the trial games will be:

Probables: Goal, D. Wright; Backs, E. Heustis, H. E. Hastie; Half-backs, W. Cooke, Jno. Tonely, H. Malcolm; Forwards, D. Lowes, Nichols, S. Meeres, F. Hopkins, W. Reid.

Possibles: Goal, Caswell; Backs, J. Steadman, Bearchall; Half-backs, H. C. Carswell, H. Cotton, Currie; Forwards, Lynn, McBride, Bowie, Marson, Hesketh.

A practice game was played last night, and a second one will be played on Friday night.

BASEBALL

The baseball team journeyed by cars to Penhold on Friday last for their first game of this season with the team of that town, a very fair game of seven innings resulting in a win for Ponoka by 5-1. The boys have no kick on the game, as errors accounted for the majority of the opponents' runs. Ponoka have a very good team, and we will see a very good exhibition when the return game is played here. Following was the Red Deer team: P. Smith, p; M. Braton, c; Bonnick, 1b; Hamley, 2b; Marshall, ss; Lowe, 3b; R. Malcolm, rf; Dancoe, cf; C. Malcolm, lf. A good number of supporters went up from here.

The Red Deer team play at Rimbey on Friday.

MAJOR R. W. FISKE, D.S.O.

In the Canadian Gazette of June 5, we notice the name of Major R. W. Fiske, 8th Battalion, among the list of Canadians gazetted to the D.S.O. This is the third D.S.O. that has come to members of Red Deer Lodge Sons of England, the other two being Lieut.-Col. L. F. Page, and Major the Rev. C. W. G. Moore.

PENHOLD.

Tom Kennings is expected home on Wednesday or Thursday.

Service will be held next Sunday in the Anglican Church at 3 p.m.

Mr. and Mrs. Stigings will spend a while with friends at Little Red Deer.

Mrs. Jack Robinson and son Willie, spend a few days last week in Calgary.

Mr. Tom Stigings will shortly be going to Edmonton to take up his new work with the Woodland Dairy Co.

The annual church parade of the Orange Lodge of Penhold will take place on Sunday, June 29th, to the Horn Hill Church.

A very enjoyable evening was spent by over 70 friends last Friday in the new home of Mr. and Mrs. Farrar Speakman, to welcome home Percy Pye.

A splendid time was had by all who took in the dance last Monday that was given by the Women's Institute in McDougall's Barn. The Innisfail orchestra was in attendance, and provided splendid music. Over $100.00 was cleared, which is to be put to the Community Hall fund. Another dance is promised in two weeks' time.

On Friday, June 27th, in the Presbyterian Church, will be given a musical recital by the pupils of Miss Norris' music class, which will include vocal and instrumental solos and duets, also the inimitable actor-comedian Henry Charles Suter, will give several sketches of Dickens' famous characters. Don't fail to see this. Admission, adults, 50c, children, 25c.

The many friends of Mr. L. Coates so very well known in Penhold, will be pleased to hear he has quite recovered after an operation at the Holy Cross Hospital, some four weeks ago. We understand Mr. Coates has taken a position with Brown, Davies, Ltd., 108, 8th Ave., East Calgary, one of the largest dry goods and ladies ready to wear houses in the West, and no doubt will be pleased to have any of his old friends coming to the city call in to see him.

LOCAL AND GENERAL

Dr. Huestis and George Fleming are building cottages at the Lake.

Mrs. Hugh Sharon, from Ontario, is the guest of Mr. and Mrs. L. J. Porter.

W. C. McLaughlin and Co. have taken over the business of the Alexander Meat Co.

Mr. and Mrs. Gover are now residing in Archdeacon Dewdney's residence on the Edmonton trail.

Miss Ellen Peterson is home from Edmonton for a few days with her sister, Miss Peterson, West Park.

Insure against hail in a farmers' company. Latimer and Botterill are agents for the U.G.G.

Mrs. F. B. Simonton and Miss Gilleland went to Sylvan Lake last Wednesday. Mrs. Simonton will spend July at the Lake.

The meetings of the "Little Helpers" of the W.A. will be discontinued until the first Friday in September (5th).

Fred Lund has been down with fever the past week. His business has been moved to the new garage on 2nd Street South.

A special meeting of the members of St. Andrew's Society will be held on Wednesday, July 2nd, at 7.30 at Campbell, Wilson & Horne's.

The basket picnic, arranged by the Ladies' Auxiliary of the G.W.V.A. for Friday, 27th inst., is postoned indefinitely.

The Bishop of Calgary, assisted by Venerable Archdeacon Dewdney, conducted confirmation service in St. Luke's Church on Sunday morning last. They held confirmation service at Lacombe in the evening.

The second annual picnic of the Catholic Church takes place on the 1st of July on the beautiful shady ground behind the convent. All kinds of races and games with prizes, open to everyone. Let everybody come and have a good time.

Miss Alice Nash graduated at the Medicine Hat General Hospital on the 17th inst. She took the first prize (Gold Medal) for Surgery. She has taken the position of Superintendent of the Isolation Hospital at Medicine Hat.

Sir James Outram, Bart., Grand Master of the Orange Order for Alberta, gave a stirring address in the Parish Hall on Monday evening last to a good audience. He spoke on "The Message of the Orange Order in Alberta: one State School, one State Language." The chair was ably filled by A. S. Maxwell.

Chief of Police Charles Anderson, who was given leave of absence to join up with His Majesty's forces, has taken over his old position again. Jesse Halstead, who has filled the position with credit to himself, will take charge of the parks, the cemetery and the boulevards for the present.

H. E. Smith, of Red Deer, sergeant in the Alberta Provincial Police, has the honor of being the first to write to the Edmonton Exhibition management for information re their camping ground during Exhibition week, he having written several weeks ago, as soon as they made their announcement that they would provide this accommodation. We are now informed that, while a large number of requests have been made for information, and tents reserved, Mr. Smith also holds the record of being the first to send in the fees reserving tent and equipment, also weekly tickets. Mr. Smith will be accommodated by Mrs. Smith and four children, and has arranged to take possession of their tent on the Sunday prior to the Exhibition, which opens on Monday, July 7th.

MARRIED.

At the Methodist Parsonage, Red Deer on June 21st, 1919, Rev. Geo. D. Armstrong, B.A., officiating, Alfred William Waters, of Rocky Mountain House, to Gertrude Hillman, daughter of Henry Hillman, of Newport, England.

At the Methodist Parsonage, Red Deer, June 24th, 1919, Rev. Geo. D. Armstrong officiating, Horace Allard, of Red Deer, to Mary E., daughter of Alexander H. Cody, of Willowdale, Alberta.

At the Manse, Red Deer, on Monday, June 23rd, by the Rev. W. G. Brown, Miss Elizabeth McBlane, of Red Deer, to Mr. Ernest Roy, of Russeldale, Ontario, who has recently returned from overseas.

DEATHS.

Died, at Edwell, Alta., on Thursday, June 19th, Miriam Melissa Graham, aged 71 years, wife of Mr. Joseph Graham, of Edwell. The funeral was held on Sunday afternoon at 2 o'clock, conducted by the Rev. Meek from the family residence to Red Deer cemetery, where interment took place. Arrangements in charge of The Jacques-Orme Funeral Home.

Brumpton & Gaetz, Limited

Each Day Confirms the Position of This Store as the Economy Store

It is the aim of this store that each day's values shall so impress the customers entering the store that they in turn will become so satisfied with the purchases and savings effected, that not only will they become staunch customers of the store, but they will induce others to purchace here.

WOMEN'S OR GROWING GIRLS' GUN METAL CALF LACED BOOTS, mat top, White Rinex soles and Cat's Paw heels. It is a very stylish and durable school boot for the older girls; per pair **$7.75**

Another line of **GUN METAL CALF** for the older school girls, with leather soles and rubber heels—Looks to us like splendid value at **$7.50**

WOMEN'S FINE QUALITY BLACK DONGOLA KID DRESS BOOT in straight laced, pointed toe style, Good-year welted leather soles and Louis heels at **$8.50**

FINE GREY LACED BOOT, "Virigina" make. A very nice line imported from the United States, and we believe will give the ladies splendid wear, coupled with very smart appearance; priced at **$13.50**

An **AMHERST BOX KIP BLUCHER**; absolutely solid leather from end to end. For girls having to walk to school in all kinds of weather; something that will faithfully withstand the most severe test of wear and weather. Price **$4.75**

A few lines of real **SCHOOL BOOTS** for the bigger girls; in all cases the sizes run from 3 to 7.

Another line of **AMHERST GIRLS' SCHOOL BOOTS** of Gun Metal Calf, with mat top, a little finer and lighter than those mentioned above. **$5.65**

GIRLS' DONGOLA KID BLUCHER; quite a serviceable school boot with a patent tip, wide last and low flat heel; for **$5.00**

Phone 26 **Brumpton & Gaetz, Limited** Ross St.

AN ASTONISHING REVELATION.

To those who have been thinking that Canadians were a pretty sober people, it must have been a great surprise to find that we have been making thousands of alcohol fiends, that is men who have become slaves to drink to such an extent that they cannot overcome the habit. Morphine and alcohol are both habit forming drugs, and those who make a specialty of treating such cases tell me that it is easier to make a permanent cure of a morphine fiend than of an alcohol fiend.

It is a sad sight to see a long line of these men waiting their turn at the liquor dispensary. They are the finished product of the liquor traffic. We have been so taken up with the drunkenness, poverty and crime caused by the traffic that we did not realize that it was producing alcohol fiends by the thousand till prohibition came into force and revealed the fact.

When these men began taking an occasional glass they did not suspect and would not believe that in time they would become its slaves. Now they are great sufferers when they cannot get some form of alcohol. The police records show that they will do anything, pay anything, and some of them commit any crime to get it. In many of these the brain is permanently injured, and there is little hope of cure. With others a few weeks of bone-dry prohibition will set them on their feet again. When they get so bad that they have to be sent to an asylum some of them get well and begin life anew, while others never come out.

It would not be so bad if the evil ended with the drinker, but it follows the offspring to the third and fourth generation until many of them die and others become a burden on the community.

Where is the man or woman of sound mind who wants this state of affairs to continue?

:o:

ROUMANIA WOULD LIKE TO COPY CANADA

What is, in a few words, the economic strength of Roumania, the gallant little kingdom which was our staunch ally in the war, and to which Canada has now granted a credit of $25,000,000? Roumania before the war contained 600,000 square miles, with a total population practically equal to that of Canada. With the additions made by the peace treaty, Roumania will probably have from fifteen to eighteen million people. Mineral resources are important, though only partly worked. The principal are rock salt, lignite and copper. The Roumanian oil fields in 1910 gave 1,344,000 tons of exude. The private capital invested in home industries was about $100,000,000. Official statistics cover fifty-two principal industries.

Farm produce is an important part of the nation's wealth. In 1912 the acreage for the main cereals was: Wheat, 5,100,000; barley, 1,230,000; maize, 5,180,000; oats, 943,000. There were 183,000 acres under cultivation as vineyards, with a production of 37,700,000 gallons of wine. The forests include roughly 7,000,000 acres of pine, oak, larch, maple, birch, elm, willow and walnut trees.

Livestock consisted of, horses, 324,000; cattle, 3,660,000; sheep, 5,260,000; hogs, 1,000,000, besides goats, mules and asses. There is valuable fishing in the Danube and the Black Sea. A great part of the fisheries is owned by the State. There are 2,167 miles of railways.

Roumanian commerce from 1896 to 1906 showed an increase of 50 per cent., and in 1911, with a total of $250,000,000, it was more than double the average for the years 1896-1900. The last returns of exports before the war showed a value of $26,000,000. The following figures show the proportion of trade done by various European countries with Roumania in 1911: Belgium, 23.12 per cent.; Germany, 17.19 per cent.; Austria, 15.85 per cent.; United Kingdom, 11.32 per cent.; France, 6.68 per cent.; Holland, 6.48 per cent.; Turkey, 6.80 per cent.; other countries, 12.06 per cent.

Roumanian exports went chiefly to the following countries: Belgium, 38 per cent.; Holland, 11.12 per cent.; Austria, 9 per cent.; United Kingdom, 8.1 per cent.; Italy, 7.16 per cent.; France, 7.1 per cent.

The Canadian Trade Commission has on file other interesting data, the most recent compiled, of Roumanian trade. All the information received from the best sources in London and Paris indicates that Roumania is likely to be one of the most stable and prosperous of the countries of the Near East.

The devastation caused by the invasion of Austrians and Germans did, of course, immense damage, but reconstruction work is well under way, and it is hoped that with a good harvest much progress will be made this year, while everything is being done to re-open the oil wells, which were badly damaged by the Germans.

The thrifty, industrious nature of the people, their love of home, and their intense patriotism are assets which cannot be estimated, but which will be appreciated above all countries in Canada. Mr. Lloyd Harris, head of the Canadian Mission in London, states that the way in which Roumania particularly looks to Canada for guidance in the present juncture is the most flattering compliment to Canada's record among the nations in the last twenty-five years. "You have built up," they say in effect, "a vast country from virgin soil. We also have similar conditions, and we would like to take Canada as our model."

RED DEER FAIR JULY 12-16

Directors Want Increased Grandstand Accommodation — Urge Board of Trade to Provide Adequate Lodging Accommodation for the Outside Fair Visitors—Fix Prices of Admission—Throw Off Entry Fees for Children's Classes—Approve Plans for Veterans' Day—Give President Power to Increase Swine and Poultry Accommodation—A Five Hour Session.

The directors of the Red Deer Agricultural Society spent five hours on Wednesday night—7.30 to 12.35—at the Fair grounds and at the Secretary's office, pushing ahead arrangements for the Red Deer "Victory" Fair of 1919, and then adjourned to Saturday afternoon. There were present Mrs. Bjorkeland, Mrs. Stone, Messrs. McKinnon, president, in the chair; Welton, secretary-treasurer; Day, Kenny, Bjorkeland, Welliver, Cole, McPherson, Coote, Smith, Waldie, Tallman, Brown, Stone, McEwan, Galbraith. Mrs. McMillan and Mrs. F. W. Gaetz met the directors at the grounds regarding conveniences for women asked for by the W.C.T.U.

Admission Tickets

It was decided that no entry fees be charged in the children's classes, and that special tickets for free entrance to the Fair for boys and girls under 12 be sent but to the schools of the district and city.

It was decided that the general admission be 50 cents for all over 12. The general admission to grandstand and paddock enclosure will be 50 cents, and 25 cents for boys and girls under 12. The charge for parking cars will be 50 cents. All boys and girls under 14 will be admitted free at the entrance gate on Children's Day, July 14. All returned soldiers, their families, or next of kin, will be admitted free to the Fair and to the grandstand on Wednesday evening admission to be arranged by up to 6 o'clock on passes issued on recommendation of the G.W.V.A., the the G.W.V.A. and the special Fair committee for Soldiers Day, Wednesday, July 16. It was also decided that Members' Tickets be given to the directors, exhibitors living within twenty-five miles of Red Deer and paying over $2 in entry fees at the Fair, and donors of $5 and over towards the funds of the Fair to be good for all admissions, and not to be transferable. Holders of members tickets will be notified of the annual meeting and be eligible for election to the Board of Directors.

Urge Board of Trade to Provide Lodging Accommodation

In view of the lack of sufficient hotel accommodation to provide lodging for visitors to the Fair, and the gain to the Fair and to the city of having outside visitors stay two or three days at the Fair instead of the one day they stay because of shortage of lodging accommodation, the Board requests the President and members of the Board of Trade Council to appoint a committee from their number to provide extra lodgings and, if necessary, provide buildings where visitors could bring their blankets and bunk during the time of the Fair.

Veterans' Day Expense Approved

The Board approved of the action of the Special Committee re Veterans' Day in pledging the Society to defray the cost of prizes for sports, etc., for Veterans' Day, the maximum to be $300, and also of the arrangement whereby the cost of the evening performance would be the first charge on the Wednesday evening gate receipts, and the profit on the evening performance to be divided equally between the Agricultural Society and the G.W.V.A.

Will Wait on Council re New Grandstand

As a result of consultation over a plan for increased grandstand accommodation outlined by Mr. Kenny, the additional seating to be built in conformity with the present stand, and in sections as funds were available, it was moved by Messrs. Day and Wellwiver that this Board, recognizing the need of increased grandstand accommodation at the Exhibition grounds for the convenience of the public at the Fair and on holiday occasions, believe that such an investment would well repay both the city and the Fair. They therefore request the city to begin the erection of increased grandstand accommodation for the 1919 Fair on the general lines submitted by a special committee of the Board at a cost for the partial plan proposed this year of $360. In case the city is not prepared to finance the increased grandstand accommodation required, the Board was prepared to arrange with the city to finance the project, the seating to be erected at once by contract under the direction of the City Commissioners and in consultation with a Committee of the Board. The President, Messrs. Smith, Day and Kenny were the committee to support the plan before the Council and to consult with the Commissioners if the scheme was approved by the Council. There was some division of opinion over this resolution, several members being of opinion that the unroofed seats proposed for this year would not be very acceptable, and that the Board was not in a position to finance the scheme this year. It was finally carried, however, by ten to four.

Ladies' Work Judges

Director Galbraith was under fire by Directors Bjorkeland and Tallman as to his responsibility for the new 1919 Fair Prize List in ladies' work and domestic manufacture, and the grievances of the objectors were ventilated. The report of the directors of this department—Mr. Tallman, Mrs. Bjorkeland and Mrs. Stone—as to judges and stewards was presented as follows and adopted:—Judges: Cooking: Mrs. K. M. Byers, Mrs. McBride. Ladies Fancy Work: Mrs. Bradley, Mrs. Whitehouse. Painting: Mr. H. G. Stone. Dairy Produce: Mr. H. W. Temple. Natural History: Mr. F. C. Whitehouse. Stewards—Cooking: Mrs. C. Stone, Mrs. Dahl. Fancy Work: Miss Edith McKinnon, Miss Jennie Richards. Painting: Mr. H. G. Stone. Natural History: F. C. Whitehouse.

Ribbons for Prizes

By the casting vote of the chairman, it was decided to expend $300 in ribbon badges. The minority wanted a more modest ribbon at $200.

Swine and Poultry Wants

The President was given authority to arrange for increased accommodation for swine, to fit up the old 191st officers quarters for a poultry building, to fix up new closets, etc. Mr. Coote was authorized to get the race track in shape.

As it was now 12.30 and several of the directors had left, the Board adjourned to 2 o'clock on Saturday to complete the present work.

ROYAL YEAST CAKES

Royal Yeast has been the standard yeast in Canada for over 50 years, and it is a well known fact that bread made with Royal Yeast possesses a greater amount of nourishment than that made with any other.

PRESENT IS NO TIME TO TEAR TARIFF TO PIECES, SAYS WHITE

GOVERNMENT CARRY BUDGET BY 50 MAJORITY.

Ottawa, June 19.—The debate on the budget concluded at 2.30 o'clock this morning and the speaker put the question. The vote on the amendment was taken first, and 14 Unionists voted for it. They were as follows: Crerar, Clark, Maharg, Knox, Davis, Levi Thompson, Reid (of Mackenzie), Johnston, Douglas, Buchanan, J. C. Campbell, Fielding, Pardee, and MacNutt.

Two Liberals voted with the government, Messrs. McCrea of Sherbrooke, and W. D. Euler, of North Waterloo.

The vote stood as follows: For the amendment, 70; against, 121. A government majority of 51.

A vote was then taken on the main motion.

Messrs. Maharg, Knox and Douglas, who voted for the amendment, then voted in favor of the budget. No Liberals voted for it.

W. F. Cockshutt, the Brantford Conservative protectionist, voted against the budget, as also did the following Unionists; Crerar, Clark, MacNutt, Thompson, Johnston, Reid, Campbell, Davis, Fielding, Pardee and Buchanan.

The voting stood: For the Budget, 120; against, 70. A government majority of 50.

The last figures were announced at 3.15 a.m.

Ottawa, June 19.—A feature of the budget debate which will be brought to a close by a division on the McMaster amendment during the early morning hours was a second speech by Sir Thomas White, minister of finance, who took advantage of his privilege to speak on the amendment. Sir Thomas entered upon a somewhat extensive review of the financial position of the country and declared that the present was no time to tear the tariff to pieces. He questioned the sincerity of some of the opposition members supporting the amendment, which he declared as collecting more chaff than wheat.

Sir Thomas emphasized the fact that the increase in Canada's national debt was due entirely to the war. He declared that of all nations which had been in the war since the beginning, Canada's financial condition was the best. The per capita debt of Canda amounted to about $250. In New Zealand it was $900 per head; in Australia it was over $300.

$79,000,000 PROFITS TAX.

The member for Kent (Mr. McCoig) had taken the stand that the government had been remiss in collecting a share of the profits from industries which had derived benefit from the war. The minister of finance declared that assessments totalling $79,000,000 had been made under the business profits tax. This tax was higher than in any other country in the world, and he believed that Canada was the only country which was continuing it throughout the present year.

Sir Thomas, continuing, said that of all the loans floated in the war by any of the belligerents, the last Canadian victory loan was by far the greatest success.

As to the loan being tax exempt, Sir Thomas said that if it had not been tax exempt the country would not have obtained anything like the amount of money it did obtain, or would have had to pay a much higher rate of interest. The government was in the war to the hilt, and did what had been done in order to meet the situation, to keep the man at the front and to provide credits to enable the country to continue the war.

INCOME TAX DIFFICULTIES.

There was criticism of the income tax. But it should be remembered that in some provinces, as in British Columbia, there was a triple income tax. At the present time the Canadian income tax was on about the same basis as that of the United States. Were it made too heavy, it would debar many people from coming into the country. Furthermore, the Dominion government, in the matter of taxation, should have regard to provincial and municipal requirements.

He thought that the adoption of a land tax would not be wise at the present time.

Sir Thomas attributed the high cost of living to diminished production and increased consumption due to the war. If there are combines, he said, we should take such action as is necessary, but despite any action that can be taken by the government, group of men will make money, and if it is made honestly, it is a good thing for the country. If proper steps are taken to get people to come to Canada, and we produce, work, and save, we can look forward to the future with confidence.

THE McMASTER AMENDMENT.

Coming to Mr. McMaster's amendment, Sir Thomas said he did not believe there were in the house twenty men who would consider it wise to tear the tariff to pieces and build it up again at the present time. In a great producing country like Canada duties on foodstuffs, he said, had an almost imperceptible effect, but these duties should bear more lightly on the necessities. If the amendment were carried, he said, customs collections, which would be reduced by $17,000,000 by the proposed changes, would be reduced by another $33,000,000. A vote for the amendment would be a vote in favor of having the revenue of the country drop to $50,000,000 less than current expenditure.

POLITICS RATHER THAN POLICY

The leader of the opposition was one who believed in fiscal freedom, so long as it does not affect the iron and steel products of Nova Scotia. He thought the amendment was designed to serve a political purpose, rather than to define a policy.

Sir Thomas declared that no matter what platform the opposition adopted, if they were occupying the treasury benches they would not want to make tariff changes at present. They had not done it when they were in power, and they would not want to do it now.

The budget represented a sincere effort to promote stability at a most unstable time, while meeting, insofar as possible, the wishes of the various sections of the community. If you put on an inheritance and land tax, they would not meet a fraction of the deficit which the country was facing. In closing, he made a plea for unity. The government, he said, could not play favorites as far as the tariff went. It must adopt a policy which would work out to the national interest.

R. L. RICHARDSON'S STAND

Speaking after midnight last night R. L. Richardson, Springfield, said he regarded this was still a war government, and as long as the war or the aftermath of the war continued it was his duty to support it. On tariff matters he agreed in the main with Dr. Michael Clark.

Hon. W. S. Fielding declared himself in favor of the amendment, after warning the government of the danger of the exemption of the war bonds from taxation. These bonds were getting into the hands of the wealthy classes, he said, and they would find that after a time the poor man who paid the taxes would have a rich neighbor paying not a cent. Pointing out that supporters of the government advocated endorsation of the budget because it had many of the features of the reciprocity agreement, Mr. Fielding made an extended reference to that issue and poked fun at the minister of finance for bringing about what he had been sent to parliament to oppose.

Colonel James Arthurs, Parry Sound and Colonel W. A. Logie, V.C., Skeena, supported the budget, the latter rising to speak at 2.15 a.m.

THE U.F.A. CONVENTION

The closing day of the convention last Wednesday was productive of a good deal of amusement and free speech among the delegates. After refusing twice on Tuesday to hear the delegation from the Liberal convention, the convention decided on Wednesday morning to give them an opportunity to express their views. Accordingly in the afternoon Mr. Gibson, of Lacombe, reviewed the meeting of the Liberal Association at Red Deer on June 6, and suggested that it would be unwise to run two candidates if they could rally all the low tariff support to one man.

Mr. Puffer, the nominee of the Liberals, declaimed any anxiety to run, if some representative farmer could be selected.

Harry Wallace raised a laugh when he suggested that the Liberals were trying to get the U.F.A. to sell out—take joint action. He claimed that the speakers were not representative of the real Liberal party. He was an old member of the Liberal executive and he knew nothing of the convention from which they claimed to come. They did not want the Dr. Clark Liberals to know anything about them, and they had no claim to the name of Liberal. They were frightened to death for fear of the great storm which was coming upon them, and were trying to get out from under.

Eventually it was decided that the executive investigate the political situation in the riding with a view to report on what measure of political affiliation was practicable with other political elements in it.

The following officers were elected:

C. F. Damron, Bentley, president.

Mrs. Walter Pariby, first vice-president.

D. Cameron, Elnora, second vice-president; H. A. Malcolm, Innisfail, Secretary-Treasurer.

Executive: Jos. Stauffer, H. A. Malcolm, L. M. Gaetz, A. W. Sharp, H. A. Dean, C. C. Wager, H. Swan.

The convention closed with the usual votes of thanks, and the National Anthem.

HIS RESOURCEFULNESS.

Stern was the glance which the coroner cast at the quack doctor who had just appeared in the witness box.

"And when you were called in," he asked, "what did you give the deceased?"

"Give him? Well I gave him ipecacuanha."

"Indeed," sneered the coroner. "And I suppose you know, sir, that in the man's condition you might as well have given him the aurora borealis?"

"Quite so—quite so, sir," said the witness blandly. It is a pleasure to meet a man of medical education. That is exactly what I should have given him if he had not died!"

A TRUE BIRD STORY

The young bird has to learn how to do things just as small boys and girls do, although not in exactly the same way.

One of the first lessons he learns is how to fly. He really knows how to do this, but needs practice until his wings grow strong enough to carry him through the air. Many young birds begin this practice before they leave the nest. I have often seen a nestling beating and beating his wings without stirring an inch from his tiny home.

You have heard, perhaps, that the father and mother birds push their babies out of the nest. Do not believe any such thing because it is not true. I have seen many young birds leave their nests of their own accord, but never one pushed out. Sometimes the mother may coax her children, but often they fly out while the parents are away finding food.

After the young bird leaves the nest his father and mother follow and feed him for he does not yet know how to feed himself. This is the next lesson he has to learn. He must also know where to sleep, and how to protect himself from all the other creatures which want to catch him and eat him. Then he must be able to sing, and no doubt there are many other lessons for him to learn that we do not know about.

Once I had a good chance to watch two young blue jays learn to get their own living. After they had left the nest they lived in a little grove, where I could easily find them when I went to watch. They seemed to be always hungry and every few minutes one of the parents would hurry up with a grasshopper or some other insect to stuff into the wideopen mouths. They were fed choke-cherries, too. These little wild cherries grew on a big tree in the grove.

One day after giving the twins chokecherries, the parents slipped quietly out of sight, and stayed away a long time. I could see them perching near but the young birds could not. The father and mother were not hunting food, as usual, but seemed to be taking a rest. I wondered at this, for I had never seen them resting since the little ones were hatched.

The twins, who were quite as large as their parents now, did not try to pull any of the fruit from the trees, although it grew all about, and they had often seen it done. They sat idly picking at their toes, stretching their beautiful wings, or hopping from branch to branch.

Soon it was evident that they were hungry, for they began to call. Nothing happened. They called again. Still no food. This must have been a great surprise, for usually their cries brought one parent with food at once. Hungrier and hungrier they grew, and louder and louder they called, and still no parents.

All this time I could see the mother and father birds sitting near, and I also began to wonder why they did not bring something.

At last the mother flew to the children, but with nothing in her beak. Squawking madly, the two hungry youngsters flung themselves upon her. They almost knocked her off the perch. She just hopped out of the way and did not seem to care that they were hungry. Again the twins flew at her, begging for food, and again she calmly hopped out of the way. Then she hopped up to a bunch of cherries and pulled one. The children crowded close, and what do you think that bird did? She deliberately swallowed that cherry herself.

The twins seemed dumbfounded. For a minute they did not make a sound or move a muscle. Then screaming louder than ever they began jerking at the chokecherries for themselves. At first they were so clumsy they dropped every one, but soon they managed to swallow a few

TEACHERS' SALARIES

At an adjourned meteing of the Public School Board on Monday evening, with Chairman Gaetz, Secretary Welton, Trustees Payne and Stephengen, and Principal Locke present, the Board spent two to three hours over the revision of the teaching staff and the salary list. The Board faces increases all round, and adjustments were made according to length of service, and the responsibility of the work in one or two cases. Principal Locke and Miss Nelson are retiring from the High School staff, which will require four teachers next year, owing to a double Grade 8 this year, and Miss Creelman and Miss Grace Ramsey are resigning from the Public School staff. Miss Cole and Mrs. Parke, on leave of absence, will probably take their old positions, although Mrs. Parke is an applicant for a position on the High School staff. The Board are inclined to get University graduates all through for the High School, if such are available. No appointment has been made as Principal, though the Board have a good man in sight for Mr. Locke's place. The new salaries and old positions will be offered to the present staff and, when their replies are received, the Trustees will proceed to fill the vacancies.

BLUFFING THE BUTCHER.

A joker rushed into the butcher's which had a fine display of sheep's tongues for sale.

"I say," he said, "there's a big black dog running down the street with a tongue in its mouth!"

"Is there? The beast!" shouted the butcher.

Seizing a chopper, he rushed out of the shop after the thief. He caught a glimpse of a dog answering to the description at the corner and gave chase, but eventually lost sight of it.

"Have you seen a big black dog with a tongue in its mouth?" he asked a group of lads.

"With a tongue in its mouth?" asked one, laughing. "Did you ever see one without?"

"Sold!" muttered the butcher, when he returned and found the joker had departed.

IN THE WAR AND NOT IN IT.

A rather peculiar complication was brought about when American forces formed part of an Allied contingent landed at Smyrna in Asiatic Turkey. Since the United States is not at war with Turkey, the American contingent in the landing party did not take part in the fighting. "Yet it is obvious that the position of American soldiers abroad grows more and more embarrassing," says the Springfield Republican. In Siberia, too, they are kept out of the fighting while French and British troops pass on their way to the front, and more than once this attitude of detachment has led to strained relations. The sooner American forces can be extricated from so invidious a position, the better everybody will be pleased.

NOTICE
G.W.V.A.

In order to make the Veterans' Day at the Fair a grand success, it is the wish of every executive that every member of the G.W.V.A. will consider himself called upon to boost for the Red Deer Fair, and particularly Veterans' Day. Any suggestion, therefore that each member can offer will be gratefully received. Please have these suggestions in writing left with the Secretary.

CHAS. SINCLAIR,
Secretary, G.W.V.A.

Those two young blue jays had learned the great lesson of their lives.

DEPORT THE BOLSHEVISTS.

There is no good reason, says the Toronto Globe, why the Canadian taxpayer should be burdened with the maintenance of Bolshevists or revolutionists from foreign countries or from any part of the British Empire. These gentry should be sent back to the countries whence they came, and in the case of the European breeders of trouble that would be the most severe punishment, for none of them want to go back, especially the Russians. The only kind of Bolshevists that this country should be responsible for feeding and lodging at the public expense is the Canadian variety, which is usually represented by men whose minds have become perverted by false teachings, who conjure up imaginary wrongs and tyrannies from which they never suffered, and work themselves into a state of frenzy bordering on insanity. There are a few Canadian revolutionaries, it must be confessed, who cannot be accused of weak mentality or incipient insanity, and who from mere desire for destruction or lust for power preach doctrines that may lead some of their less able fellow-citizens to reckless deeds against life and property.

For these preachers of violence, as a means to better conditions instead of the slower but more certain constitutional methods, the penitentiary is the best abiding place that the country can offer. Actuated, no doubt by the belief that the lesson has been learned, and that clemency will but emphasize it, the Government has opened the doors of the prisons for some of these revolutionists before they have had time to realize that they were "sitting in the ashes of their folly." The result has been to spread the impression that no great harm can come to anyone who implants belief in the wisdom of violence in the hearts of unthinking mobs. It is a practise that may yet cause the Government to sit in the ashes of penitence, with the sackcloth of regret as their only garment.

THE POSTAL WORKERS.

Premier Borden is being attacked for his statement in the House of Commons that the postal workers who had defied the Government were permanently out of the Government service. The strike people are charging him with taking an autocratic stand.

If the Premier had announced, says the Winnipeg Free Press, that the position of the Government service strikers was open to further consideration, the same people would attack the Government for being supine, spineless, wobbling. Nothing will please some folk in the community. But it is fairly safe to assume that the majority of the people of the country will support the position that the employees of the Government service, who are employees of all classes in the community, must listen to the voice of all the people in the community and not to any one section of it.

When the postal workers believed the Government was bluffing when it ordered them back to work, they were taking a sporting chance. Men do that sort of thing in a poker game. They "called" the Government and have found that it was no bluff. Men do that also in a poker game.

But when they lose out they do not

STORM KILLS TWO HUNDRED IN MINNESOTA

RAILWAY TRAIN BLOWN FROM TRACKS; HUNDRED HOUSES ARE LEVELLED

St. Paul, Minn., June 23.—Destruction of the central section of Fergus Falls, Minn., by a tornado this evening, with the loss of perhaps 200 lives, was reported tonight by railroad officials and despatches from nearby towns.

The storm struck the city about seven o'clock, destroying among other buildings, the Grand hotel, in which it is reported 75 persons were trapped when the structure collapsed.

Great Northern train No. 1, the Oriental Limited, westbound from Chicago to Seattle, was blown from the track about twenty miles west of Fergus Falls, but early reports said only one passenger was injured. The passengers were taken to Moorhead, Minn.

Reports from Staples said the Great Northern depot at Fergus Falls also was blown down by the storm and many persons killed there.

Brainerd, Minn., residents saw the storm sweeping in a northeasterly direction, passing over several towns after its destruction at Fergus Falls, but no other towns in that vicinity reported serious damage.

At eleven o'clock tonight a special train left the Twin Cities bound for Fergus Falls, and is expected to reach there early tomorrow morning. Governor Burnquist, Adjutant General Rhinow, 75 sanitary corps troops and a large party of doctors, nurses and railroad officials left on the special. Other Minnesota national guard units here and in towns near Fergus Falls were ordered to hold themselves in readiness for duty there.

The telephone operator at Battle Lake, Minn., 18 miles west of Fergus Falls, said the tornado demolished all the buildings between the Grand hotel in the eastern section of the city and the brewery in western section, both those buildings also being razed by the storm.

AUTO RACES AT CALGARY.

Calgary, Alta, June 20—Luminaries of the gasoline world will battle on the track at Calgary Exhibition on Friday and Saturday, July 4 and 5, for $4,000 in cash prizes, and also for the honor and glory that usually goes to the victor. The entry list contains the names of eight of the most famous pilots of the circular courses, and Manager Richardson of the Exhibition is proudly boasting that he has landed the "cream" of the driving talent.

Such noted Mercurian monarchs as "Wild Bill" Endicott, Jules Ellingboe, Dave Koetzia, R. Burr Lampkin, Irvin Hoffman, Ray Claypool, Joe Fosser and Joe Cooper will face J. Alex. Sloan, of Chicago, in the first event on Friday. Endicott, Ellingboe and Koetzia have countless admirers among the racing enthusiasts of Calgary and vicinity, as they have displayed their driving ability in previous meets.

The cars that will compete include a Briscoe, Hudson, Rahe Special, Lorraine Special, Case Comet, Italian Duggati, Mooney Special, and an "S.X." Special. Seven events are listed on the programme daily, and the races will start promptly at 2.30 o'clock. So great were the crowds at the races in 1917 and 1918, that this year the director of the Exhibition have constructed a new grandstand for the purpose of accommodating the public. This season it will be possible to seat 15,000, and judging from interest already manifested, it is certain that the capacity of both grandstands will be tested.

HIS PRAYER

An officer of the A.E.F. relates the following:

"We had a bunch of negro troops on board and it was a terrible experience to them, as most of them had never been away from home before. They were very religious and used to pray all over the ship. One big buck held a prayer right outside my window thus: 'Oh Lord, if Thou doesn't do another thing on this trip call this ocean to attention.'"

RESULTS IN STEER FEEDING EXPERIMENTS

Steer feeding experiments conducted on the Scott Experimental Station with a view to determining the possibilities of this side line on the grain farms of North western Canada, indicate this to be a profitable line of work: (1) to increase the farm revenue, (2) to furnish winter employment for hired help, (3) to supply fertilizer for the land, and (4) to turn into profit, products such as straw and screenings that are now wasted on many farms.

Since the equipment must be inexpensive, the buildings used in the experiments for housing the steers were a straw shed and a tight board corral roofed at one end.

The grain feeds used were crushed oats and barley and wheat screenings. The roughage consisted of oat and wheat straw and prairie hay. A few oat sheaves were also fed when available.

The steers were purchased each year from a local dealer and put in the feed lot about December 1st, and sold in the following May or June.

The ration at the commencement of the experiment consisted of about two pounds of grain per head per day, and this was increased until the animals were receiving 12 pounds each per day. Straw was fed during the early part of the winter and later this was replaced by prairie hay.

The following experiments were conducted: First, a comparison of steers fed inside a straw shed with those fed in the open corral. Second a comparison of hornless steers with those dehorned just before putting in the feed lot, and in addition records were kept to show the profits on the venture. The conclusions reached indicate the advisability of giving steers on the open plains some protection, since the steers fed in the straw shed in the winter of 1916-17 made an average gain of 204 pounds each during the feeding period, while those feeding in the corral only made a gain of 159 pounds. The following winter the same difference in favor of the steers fed in the straw shed was noted.

The only apparent advantages the straw shed had were that the steers fed under cover, and that the shed was less drafty than the roofed end of the corral. In the comparison of hornless steers with dehorned steers the former showed a gain of 119 pounds each in comparison with 64 pounds in the same period made by the dehorned steers.

In both years substantial profits were realised from steer feeding. The average profit per steer over the cost of feed amounted to $22.02.

Notes made on the experiments show the importance of selecting for feeding good, beefy type, thick, mossy-coated steers.

That steers should be dehorned while they are calves.

That some shelter should be provided on the open plains to protect the steers from the winds.

That good straw makes good roughage during the early part of the feeding season.

That well finished steers usually bring the most profit.

INDUSTRIAL CONGRESS AT CALGARY.

It is now definitely announced that Sir Robert Borden will attend and address the big industrial congress at Calgary on either August 13 or 14. This fact, together with the announcement that such men as Henry Ford, Sir Edmund Walker, Joseph Oliver of the Oliver Plow Works, President of the Canadian Pacific, head of the Studebaker Corporation, the Willys-Overland, the International Harvester and other such men are to speak, assures a gathering of tremendous proportion.

The congress is to be provincial-wide in nature, including a tour of the province by special trains, arrangements for which have been made by the Canadian Pacific Railway, and commencing at Medicine Hat on August 11. The tour includes Lethbridge, Calgary, Edmonton, and a trip to the resorts in the Rockies.

Such men as Dr. McLaurin of the University of Saskatchewan, Dr. Gordon of Queen's University, William Pearce of the C.P.R. Natural Resources, will address the Congress on the resources of the province of Alberta, while such men as Robert Dollar, head of the Dollar Steamship Company of trans-Pacific routes and Sir Edmund Walker will discuss Pacific and Oriental commerce.

The main and educational sessions are to be held in Calgary, August 13 and 14. At Edmonton Premier Stewart and the Government will give a reception. While no effort is being made to attract the masses of the people, all those in any way interested in industrial development will be heartily welcomed to the educational sessions at Calgary, it is announced by the Program committee. Congress headquarters have been opened in the Palliser Hotel, Calgary, from which thousands of invitations have been issued.

SUMMER SCHOOL FOR TEACHERS JULY 5 — AUGUST 9

The seventh session of the Summer School for Teachers to be held at the University of Alberta, Edmonton, under the direction of the Department of Education, will open on July 5th instead of July 2nd as previously announced.

In addition to the regular courses which have been offered in the past, several new ones will be given including Public School Music, Organized Play, Methods for Teachers of non-English pupils, a course for Principals of Village and Consolidated Schools, and some academic courses leading to a degree.

Judging from the number of applications which have been received, a large number will avail themselves of this opportunity of improving their professional standing.

REAL CURE FOR INFLUENZA AND PNEUMONIA

DR. DUNCAN, OF NEW YORK, USED TREATMENT ON 246 PATIENTS AND NO FATALITIES

New York, June 18.—Influenza and pneumonia are no more to be feared than a boil on the back of the neck, according to Dr. Charles H. Duncan, one of the founders of the Volunteer hospital, who, in an address here yesterday before the convention of the Allied Medical Associations of America, described his method of combating the disease by means of immunizing the patient to his own person.

Upon 246 patients ill with pneumonia and influenza last winter, Dr. Duncan said, he had used the treatment "without a single fatality or any complications."

"Briefly," the physician said, "I take one drachm of mucus from the infected area and pasteurize it in one ounce of filtered water, where it remains several hours. One cubic centimetre of this toxine, injected subcutaneously, will effect a spontaneous cure of Spanish influenza, pneumonia, catarrh or any similar localized infection. It will stop any cough except tuberculosis, inside of 24 hours."

Dr. G. F. Laidlow, professor of the history of medicine and diagnosis at Flower hospital, in discussing the method, said that the discoverer has "solved a problem that has been germinating in medicine for 2,000 years."

MARIANNE AND KUUSAMO SCHOOLS PICNIC

On Friday, June 13th, the children of Marianne and Kuusamo Schools, with their parents and friends, met on the farm of Mr. August Johnson.

The weather was perfect and all present enjoyed themselves thoroughly. Mr. Johnson deserves the thanks of the people of the district for the use of his grounds, which are admirably suited for the purpose, and for providing stove, tables, etc.

The teachers, Miss Laycock and Mr. H. G. Laycock, were untiring in their efforts to give everyone a good time and are to be congratulated on the success of the event.

Competition was keen between the children of the two schools, and at times quite exciting.

The great event of the day was a basket ball match between the girls of the two schools. Kuusamo won.

The following is a list of the prize winners:

Girls' events (9 and under) 25 yds. dash—1, Alice Cameron, 2, Edna Portin, 3, Tyyne Soderlund

Egg and spoon race—1, Esther Woima; 2, Tyyne Soderlund; 3, Emma Dingmaun.

(12 and under) 50 yd. dash—1, Sara Burdick; 2, Aili Pitkanen; 3, Mary Bellikka.

Egg and spoon race—1, Pearle Norby; 2, Mary Bellika; 3, Sara Burdick.

Skipping race—1, Hella Lund; 2, Pearle Norby; 3, May Jarvie.

Relay race—1, 2, and 3, went to Marianne.

13 and over—75 yards dash—1, Caroline Burdick; 2, Della Learned; 3, Sadie Helman.

3-legged race—1, Sadie Helman and Aili Vali; 2, May Norby and Petra Berthenson.

Skipping race—1, Caroline Burdick; 2, Sadie Helman; 3, Petra Berthenson.

Relay race—1 and 2, Marianne, 3, Kuusamo.

Basket Ball—Kuusamo, 14; Marianne, 8.

Boys events (9 and under)—25 yd. dash—1, Hans Bellika; 2, Fred Harju; 3, Aro Portin.

Standing broad jump—1, Aro Portin; 2, Hans Bellika; 3, Fred Harju.

Standing high jump—1, Fred Harju; 2, Aro Porttin; 3, Hans Bellika.

Hop, step and jump—1, Fred Harju; 2, Aro Porttin; 3, Willie Lund.

Running broad jump—1, Fred Harju; 2, Aro Porttin; 3, Willie Lund.

Pole Vault—1, Fred Harju; 2, Willie Lund; 3, Raymond Helman.

12 and under—50 yards dash—1, John Kalaputas; 2, Wilfrid Porttin; 3, Iver Halstein.

3-legged race—1, W. Mattson and J. Kalaputas; 2, E. Lund and W. Portin; 3, G. Cameron and M. Anderson.

Standing broad jump—1, John Kalaputas; 2, Waino Mattson; 3, Walter Kuores.

Standing high jump—1, Waino Mattson; 2, Walter Kuores; 3, John Kalaputas.

Hop, step and jump—1, J. Kalaputas; 2, W. Mattson; 3, Elvin Hanson.

Running broad jump—1, J. Kalaputas; 2, W. Mattson; 3, W. Kuores.

Pole vault—1, J. Kalaputas; 2, Ole Berthenson; 3, Iver Halstein.

13 and over—100 yards dash—1, W. Vali; 2, Paul Burdick; 3, Waino Pitkanen.

3-legged race—1, W. Mattson and J. Kalaputas; 2, Elmer Kujala and P. Burdick; 3, T. Woima and W. Staudinger.

Standing broad jump—1, W. Vali; 2, J. Kalaputas; 3, S. Holappa.

Hop, step and jump—1, W. Vali; 2, J. Kalaputas; 3, E. Kujalas.

Running broad jump—W. Vali; 2, P. Burdick; 3, E. Kujala.

Pole vault—1, J. Kalaputas; 2, E. Kujala; 3, W. Staudinger.

Saddle riding on rope—1, Walter Vali; 2, Sten. Holappa; 3, Elmer Kujala.

Tug-of-war—1, Marianne.

Flattery is the kind of praise we hear of others.

The average young man finds it easier to get a wife than the furniture.

WANTED.—Boys and Young Men to learn band instruments.—Apply at once to H. L. Bright, bandmaster, V. and C. Band, Armouries, Red Deer.

WANTED—A chambermaid. Apply at the Arlington Hotel. Jnne 4, tf.

NOTICE TO CREDITORS AND CLAIMANTS.

IN THE ESTATE of Albert Parker, late of the District of Alhambra, Farmer, deceased.

Chiropractic

KI-RO-PRAK-TIK

You can live a happy useful life by taking CHIROPRACTIC ADJUSTMENTS. Thousands of people are today taking an active part in life who would have been invalids had they not taken Chiropractic Adjustments.

Some of the greatest wrestlers of the world are taking Chiropractic Adjustments in order that the best that is in them may be developed.

THE CHILDREN

If your children are not developing as they should, take them to a CHIROPRACTOR and have them examined, and he will tell you whether or not Chiropractic will help them. Do not let their trouble stand as it is, or allow it to get any worse, for the longer it stands, the longer it takes and the harder it is to get them well.

TROUBLES

All troubles such as stomach, liver, kidney, bowel trouble, headaches, nervous breakdowns, throat and bronchial trouble, backache, neuritis, head noises: the above mentioned, as well as many other troubles yield under Chiropractic Adjustments.

Examination and Spinal Analysis Free at Office

Lena M. and F.W. Bonsall
DOCTORS OF CHIROPRACTIC
Office Hours: 9.30 a.m. to 11.30 a.m.; 2 p.m. to 5 p.m.
Rooms 1-3 Gaetz-Cornett Block
Residence Phone No. 321 Office Phone No. 24
RED DEER, ALBERTA

SEASONABLE GOODS

Lawn Hose, ½ inch, per ft.	16¢
Lawn Hose, ¾ inch, per foot	20¢
Lawn Hose, ¾ inch corrigated, per foot	28¢
Spray Nozzles, each	90¢
Lawn Sprinklers, at	$2.75

We also carry **Hose Couplings and Clamps.**

Screen Doors, common sizes, at $2.50, $3.15 and $4.25

Screen Wire Cloth, in 24, 26, 28, 30, 32, 36 and 48 inch widths at right prices.

Window Screens

Day Hardware Co.

"TRADE WHERE THE TRADING'S GOOD"

Buy Your Winter's Coal Now

Employ Labor now when Labor needs employment---labor at the coal mines, labor in railway transportation.
You get a better quality of coal. Now you can pick and choose from a plentiful supply of different grades, in the winter we must take what we can get.
Now you can get immediate and certain delivery.

And Best of All

You can make money by buying your winter's coal now. The coal dealer doesn't increase his price to you in the winter because he likes to---he increases the price because he must.
The dealer makes no more money, per ton, when he sells coal at a bigger price than he does now---no one does. It costs more to mine, move and deliver coal in winter than it does now. Why not unite to save these needless costs.
We are anxious to give the best possible service to our customers---in price, quality and delivery. We can do this now; it is mighty hard to do it in the winter because of reasons beyond our control.
Those who prefer Sanders Creek Coal can get it now at a special summer price. And we have the assurance of the company that it will not be any cheaper next winter, so place your order now and make sure of your needs

The J. Malcolm Co. Ltd.

NEW TANLAC PLANT IS NOW COMPLETED

MAGNIFICENT NEW LABORATORY HAS DAILY CAPACITY OF 36,000 BOTTLES.

What is said to be one of the largest pharmaceutical laboratories in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac, the well-known medicine, which, according to recent reports, is now having the largest sale of any medicine of its kind in the world.

The erection of the new plant was made necessary by the rapid growth of the business, as the older plant was found to be wholly inadequate to supply the ever-increasing demand, which, at the present rate of sale, will amount to more than five million bottles for the present year alone.

By the erection of this plant the manufacturers of Tanlac are giving to the world just one more evidence of the remarkable growth and expansion of their business, and of their absolute confidence in its future.

This announcement will be read with interest not only by the many thousands of Tanlac agents scattered throughout every State of the Union and throughout Canada, but to the millions who have used it beneficially, as well.

The new building occupies 660,000 square feet on floor space. It is six stories in height, practically fire-proof throughout, and is is of striking architectural design. It also has private railway facilities.

This beautiful new structure now stands in striking contrast beside the older building where Tanlac was first made.

Visitors to the laboratories are strongly impressed with the extremely modern character of the equipment. Everything is provided and splendidly arranged to promote systematic and rapid production. The very latest machinery and devices known to invention and pharmaceutical science are here used.

The interior throughout is finished in spotless white, and all of the large force of employees wear white uniforms, which they are required to change daily. The main offices on the first floor are all finished in Carara marble and mahogany.

The entire process of manufacture is conducted under absolutely sanitary conditions. Even the bottles made expressly to contain Tanlac are washed and sterilized electrically by the ultra violet ray process. They then are filled by automatic machinery and the finished product is therefore never touched by human hands.

When Tanlac was introduced into Canada, history repeated itself, and the demand which had been created in the United States was quickly duplicated in the Dominion provinces. As a result, it was recently found necessary to establish another Tanlac Laboratory at Windsor, Canada, which is on a somewhat smaller scale than the plant at Dayton, but is no less modernly equipped.

These new facilities give a daily capacity of 36,000 bottles, but as Tanlac is rapidly being introduced into foreign countries, it is probably only a question of a few years before even larger facilities will become necessary.

While the manufacturers are necessarily working for capacity production, it is a fundamental rule of the Tanlac Laboratories that the quality of the medicine shall never be sacrificed to secure quantity output.

Uniform quality is guaranteed by a series of careful inspections by expert chemists, from the time the roots, herbs and barks are received in their state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labelled, and shipped out to the tens of thousands of drug gists throughout the United States and Canada, to supply a demand never before equalled by this or any other medicine.

The executive sales offices are located in Atlanta, Georgia, and occupy almost an entire floor of the Fourth National Bank Building of that city.

Tanlac is sold in Red Deer by Gaetz-Cornett Drug & Book Co.; in Stettler by Palace Phcy. Ltd.; in Eckville by Eckville Drug Co., and in Veteran by Veteran Drug Store.

THE NEWS' WEEKLY SERMON

By REV. GEO. D. ARMSTRONG

Enter ye in at the Strait Gate: for wide is the gate and broad is the way that leadeth to destruction, and many there be which go in thereat.—Matt. 7: 13.

Except ye be converted, and become as little children, ye shall not enter into the kingdom of heaven.—Matt. 18: 3.

The fruit of the spirit is love, joy, peace, long-suffering, gentleness, goodness, faith, meekness, self-control.—Gal. 5: 22.

In an age when the social aspects of the Gospel are being emphasized, and sane methods of religious education are being set forth, it is well to remind ourselves of what is fundamental to all spiritual culture and social service, the personal faith and religious life of the individual.

There is no doubt that in the shifting of the emphasis from the definite event of personal christian experience, to the context of that experience very many have been perplexed and disturbed.

Those who sharply distinguished the personality of God from the personality of man, and do not regard religion as normal to man or inherent in his very nature, very naturally and reasonably insist that there must be a definite moment when the believer is converted, when the sinner accepts the solution offered in Christ and the soul of man passes from death unto life. The idea of growing into grace savors too much of the idea of salvation by works and is regarded as a vain effort on the part of man to merit divine favor.

It would be well for us to examine into the illustration used by Jesus when talking to Nicodemus, and to appreciate the significance of His statement, "Ye must be born again." It sets forth the mystery of life—a mystery which deepens as our knowledge of life progresses. Our natural birth is not, in one sense, a distinct beginning but a stage in the process of living. A marvellous life precedes birth, a marvellous life follows it. The act of birth is but an incident in our life history. Out of the great deep, under God's law of life, we have come into earthly being; into the great mystery of eternity we shall all pass at death. Like the music of the wind, we cannot tell whence it cometh or whither it goeth. None of us can recall the moment of our natural birth, but for us the great fact is life itself. We know that we are alive. Our soul's awakening may come with a sudden flash from midnight darkness, or on the other hand the light may come with the faintness and increasing glory of the dawn. The question of vital interest to us is not how or when we have been converted, but rather are we spiritually alive? Our modern emphasis upon the content of Christian experience, upon the kind of Christians we are, is justified from every point of view.

The teaching of Jesus must be understood and interpreted in the light of what He was. We must square our ideas of His teaching with what we really know of Himself. Viewed from this standpoint, many of the hard sayings of Jesus lose their difficulty for us.

We might infer that the mission of Jesus was a comparative failure if we frame a doctrine of eternal salvation upon what is simply a philosophy of life. We might paraphrase the saying of Jesus with reference to entering the strait gate as follows: Concentration and consecration are essential to success. Life's achievements come through strict obedience to law; loose thinking and lawlessness lead to failure.

The gateways to life are always narrow. Their very limitations make them roads. We need the blazed trail through the forest, and the charted route across the ocean's expanse or we will wander through a wilderness or drift aimless and helpless over a dreary waste.

The realm of literature is an indefinite expanse—a world for large minds, free thinkers and reverent souls, but we enter into this realm by learning the alphabet and the use of words. A narrow gateway, but it leads to the stately mansions of the soul.

Mathematics rigidly insists that two and two make four—and dogmatically it insists that its laws must be observed to the minutest detail. But through the narrow gateway of mathematics we can explore the universe and read everywhere "God's thoughts after Him."

Our physical life is lived within a narrow range. Alberta's temperature may range from 60 degrees below zero, and 100 degrees above, but if our bodily temperature ranges beyond 5 or 6 degrees above or below normal there is likely to be a funeral —we walk in a narrow way, or else we cease to be!

And so in the realm of moral goodness of spiritual being, Jesus is the door. He is the living way—we accept His teaching—compassed in such a space that all that He has left on record may be read in an hour—we yield ourselves to His law, a law so definite that it may be stated in a sentence. "This is my commandment "That ye love one another, as I have loved you." We follow Him in the way of the Cross—the way of loving sacrifice and of living faith. Beginning with the principles of the doctrine of Christ we go on to perfection, on to the fulness of God.

The meaning of Jesus will be clear to us when in the light of His mission, we see the many doors of opportunity open; hear the many calls to service and leadership, which are being given, and realize how few are fitted to hear and obey these Divine calls. What life meant to Jesus, will become clear when, possessing a Christ-like character, we see life from His view-point. Eternal life will have a new and richer meaning for us than ever before. We shall understand what He meant when He referred to "the broad road that leads to destruction," but we shall not, therefore, become puritanical, since truly He did not hedge life about with petty rules and narrow prejudices and we shall not despair in life's wildest period of unrest, since from the darkest hour of human injustice, political intrigue, religious hypocrisy, and malicious mob rule, He has sounded forth the note of tried and triumphant optimism: "Be of good cheer, I have overcome the world."

It is unthinkable that Jesus shall fail to redeem the world He died to save. The eternal purpose of God shall yet express itself in real freedom for mankind.

It is not a childish thing to be a Christian, and we must not mistake puerile ideas for perfection. Too often we mistake childishness for child-likeness; "Teachability," a sense of reverence, humility and self-lessness, the instinct to grow, the wonder and interest of it all which makes us learn and worship. This will put us in an attitude toward God whereby His grace may abound in us, and His spirit lead us. We shall learn to reverence and respect ourselves and others as His children, and shall test the reality of our experience, not alone by our social habits and customs, but also by these spiritual qualities which St. Paul has stated are the fruit of His indwelling presence. The fruit of the spirit begins in the love of God and ends in divinely human self-control.

This message would be incomplete if, in addition to the optimistic note which we have sounded, we do not also sound the warning note which Jesus himself has uttered. "Agonize to enter in at the strait gate." We owe our very existence to a love which faced the terror of death and rendered inexpressible anguish that we might live.

We have witnessed the birth pangs of a new civilization—the throes of suffering which makes human progress possible. In the light of all this, dare we trifle with life's deepest interests? If the Christian life is worth anything at all, it is worth giving up everything to possess.

"And all through life we see a cross
Where sons of men yield up their breath:
There is no gain except by loss,
There is no life except through death."

REAL "POT LUCK."

A stylishly dressed woman entered the restaurant. The waiter handed her a bill of fare written in French and said: "Please mark off the dishes you wish to order."

Could a woman, dressed in the height of fashion, confess that she was unable to read French? Taking her pencil, she made a few dashes, and the order read:

"Dinner 2s., March 20, Vegetables, Please pay at the desk, No tips."

The waiter brought her a beefsteak and chip potatoes, but she did not dare to raise a word in protest.

SUPPRESSED CHIVALRY

"Shutting your eyes to it," is the practice of a certain philosophy which in many an affair of daily life has certainly much to be said for it. Whether justifiable or not, the application which a tenderhearted Scot gave to it, was certainly practical. It was on a wet day in Glasgow that a man, boarding a crowded tramcar in which several ladies were already standing, saw at the far end of the car a friend sitting with his eyes tight shut. Managing to squeeze his way along to him, he said, "Are ye no weel, John?"

"Och, aye, I'm weel enough," came the reply. "I was just sitting with ma een closed, as I canna bear to see the weemin' standin'."

BOLSHEVIKI FURNISHED MUCH MONEY

Winnipeg, June 18.—Large sums of American currency have been found in the vaults of the Labor Temple opened by the police. Correspondence with R. B. Russell, one of the strike leaders arrested, shows that for three months he had been receiving funds from Chicago sources to spread Bolshevism and establish Soviet rule throughout the Dominion.

Senator Robertson states that the record gives positive proof that money from Bolsheviki headquarters in the States had been sent for three months to Russell.

A deep and serious conspiracy has been revealed by partial examination of the documents seized in the raid on the Trades hall, according to a statement submitted by Senator Robertson, the Dominion minister of labor today. The correspondence found, according to Mr. Robertson, states that receipts of money is acknowledged and that $25,000 was to have been received by a special messenger from the United States June 18.

Bail applications are to be made for the prisoners today, but the crown has not indicated its policy on this subject, but it is understood nothing can be done until June 25, when the preliminary hearing comes up from adjournment.

The Trades Hall was quiet this morning, but large crowds gathered there. Street car service, in a limited form was resumed today, and many strikers returned to their jobs giving almost normal service to the various industries through the city. Milk now is being generally delivered making the school depots no longer necessary. The new Strike committee's central administration is doing business today and the Labor News in spite of its editor being in the penitentiary, is out today with a defiant note, saying, "Strikers will now add fourth demand, freedom of political prisoners." Big headlines declare: "Strike strengthened, Prussian methods resented." The News adds that the strike committee was informed that it was no use applying for bail. Each prisoner has a separate cell at the penitentiary. The veterans at Trades hall last night adopted a resolution in sympathy with the prisoners. Railways are now gaining what was lost the first few days of the strike among the trainmen. All passenger trains are now operating and most of the freight trains.

LEGITIMATE LABOR WILL UPHOLD THE ACTION OF THE GOVERNMENT.

Toronto, June 18.—Regarding the arrest of strike leaders in Winnipeg, the Mail and Empire says:

"The government must not stop half way or listen to the counsels of the solemn owls who undertake to utter clap-trap in the name of the citizens. The citizens want to have Winnipeg purged of the gang who did their best to throttle it and set up a rebel government. Riel was hanged for resorting to arms to do what they were attempting.

"Those, who insist that the smoking out of anarchists will be resented by labor, are slanderers of labor."

The Globe editorially, says:

"As to the wisdom or unwisdom of the government's action at this time, the details so far to hand do not afford ground for decision, but having assumed responsibility for so drastic a step, it is incumbent upon the federal government to satisfy the public that it is justified. If the arrests are part of a plan to railroad the strike leaders out of the country without trial, under the terms of the amendment of the Immigration Act, they should be abandoned now."

THE REAL REASON.

Husband (at dinner)—"By George, this is a regular banquet. Finest spread I've sat down to in any age. What's up? Do you expect company?"

Wife—"No, but I think the cook does."—Boston Transcript.

ANCIENT CUSTOMS IN ACADIA

The invention of the automobile supplanted the once favourite horse-drawn coach, and now the aeroplane may, to a large extent, take the place of the automobile. But, however science progresses, there still are places where the ancient order of things endures and the people are contented following the simple customs of their ancestors. Oxen may yet be seen drawing drays in that part of Nova Scotia known as the Land of Evangeline. It is quaint to see such a sight on the street of a village or town. Unlike horses, oxen have their greatest strength in their necks. The drays are yoked to the brows and horns of the animals with leather straps. Bells tinkle on their breasts as they move along. The tips of the horns are nearly always decorated with brass knobs. A pair of oxen will walk along leisurely drawing a load of four tons. If you interview the driver he will tell you that they are easily trained and do their work just as well as horses, and you can use them in places where horses would be difficult to manage. They plough and draw logs with the same docile temper as they show when yoked to the drays.

There are other old customs still surviving in the Land of Evangeline, and these add to the attractiveness of one of the most picturesque, romantic and historic regions in America. Silvery bays and rivers, shores of golden sand, hills and vales covered with fragrant meadows or towering pines or fruitful apple trees, sunny skies and freshening sea and land breezes give health and pleasure to thousands of tourists every year.

Across the Bay of Fundy from St. John, New Brunswick, to Digby, Nova Scotia, is a delightful trip occupying a few hours. Approaching Digby Gap the Bay is dotted with the craft of hardy Nova Scotian fishermen. Passing through the Gap the homes of the people, amidst the woods on either side, look so pretty that one might fancy they were the dwellings of the fairies. Digby Gap leads into Annapolis Basin, whose deep and sheltered waters cover an area of sixty square miles. The Basin is unsurpassed for bathing, fishing, boating, and canoeing. Good roads and walks radiate from Digby amongst enchanting scenes. There are some good hotels in this prosperous little town, and tennis, croquet and golf are amongst the games provided.

Tourists to Evangeline's Land generally make a tour of all the beauty spots of the region. Yarmouth, beside the sea, offers many allurements to the visitor. A colony of French-Canadians, whose ancestors were expelled from Grand Pre, resides in the vicinity of Yarmouth, and still retains the traditions of the Acadians. Kentville is the headquarters of the Dominion Atlantic Railway which serves the entire district. Grand Pre was the site of the village from which the Acadians were banished in 1755. The well where Evangeline was wont to go for water and the willows under which she rested are still there; Blomidon mountain and the Basin of Minas near by are just as they were of old, the meadows are green on the dykelands and the dykes keep out the sea, and a little inland the gentle hills are patched with luxurious orchards. Wolfville, the headquarters for tourists to Grand Pre, is built in the midst of one of the greatest apple growing localities in the world. The late King Edward was amongst those who visited and loved this spot. It is only a short walk from Wolfville to Grand Pre, and the marshlands extend from one place to the other.

The Dominion Atlantic Railway has purchased the "big field" where the Acadians made their village, which was their capital, and this has become a public park. ¶ A memorial cross now stands there on the site of the ancient burial ground, and a statue of Evangeline sculptured by Philippe Hebert and his son Henri, descendants of an Acadian family, will soon add the grace of art to attractions of a haunt where nature has lavished her rarest charms.

(1) The C.P.R. steamer Empress, docked in Digby Harbor.
(2) At Grand Pre. The Willows, a memorial cross and a pilgrim.
(3) An old-fashioned freight car on a Digby street.

TAXATION OF LAND ACCORDING TO VALUE

A BETTER SYSTEM THAN THAT OF LEVYING TAXES ON AN ACREAGE BASIS.

When a rate of taxation amounting to about $2.00 per quarter section was the total tax required to be levied on the lands in the Province for Provincial or Municipal purposes, the fact that these taxes were levied on a flat rate of so much per acre, regardless of the value of the land, did not cause any particular complaint, as while it was not a fair basis of taxation, the amount of taxes payable on each quarter section was so small that no particular hardship was caused, and the fact that a man owning a quarter section worth about $1,000 paid as large a tax as a man owning a quarter section worth $4,000 was not given much consideration. As the years went on it was necessary to raise the rate of taxation and to levy additional taxes. With increased taxation, it became very evident that the levying of taxes on an acreage basis was not fair. It is admitted that it is impossible to levy taxes on an absolutely fair basis, but the increasing of the amount of taxes payable on a quarter section made it clear that a system of taxtion whereby a quarter section worth only about $1,000 was taxed as high as one worth $4,000, was not just. Under such a system of taxation, taxes are not levied in accordance with the ability to pay. At a rate of say 10c per acre, a man with a quarter section worth $1,000 pays $16.00 taxes, so does the man with the quarter worth $4,000. That is, the man with the greatest ability to pay, pays only the same amount of taxes as his poorer neighbor who has land worth only one quarter as much. That is, for the purpose of taxation the value of the property owned by the man with the poorer land is rated much higher than its real worth, while in the case of the man with the more valuable land, his property is rated at much less than it is worth.

In considering the merits of any system of taxation, the matter must be approached from the standpoint that taxes should be paid according to the ability to pay, and, looking at it in this way, there does not appear to be any sound argument against the system of levying taxes according to value, rather than on an acreage basis. This principle having been recognized in connection with taxes levied directly or indirectly for the benefit of the Province at large, the different Acts through which the Province derives revenue from taxes on lands were amended at the last session of the Legislature by legislation introduced by the Minister of Municipal Affairs, so that, beginning with the year 1920, all taxes levied by the Province, either directly or indirectly, will be levied according to the value of the land, and not according to the area. That is, all taxes levied on lands outside of organized School Districts under the Educational Tax Act; taxes levied on all lands in the Province under the Supplementary Revenue Act; taxes levied on lands outside of organized Municipal Districts under the Improvement District Act, and taxes levied on lands subject to taxation under the Wild Lands Tax Act, will be levied according to the value of the land taxed. The only exception will be the taxation of lands leased from the Dominion Government, and in these cases the taxes will still be levied on an acreage basis, but as the rate is low it does not create any great hardship.

In preparation for this work, all lands outside of organized Municipalities are now being valued under the direction of the Minister of Municipal Affairs, and Municipal Districts which are not already levying their taxes according to land values, will be required to value all their lands for the purpose of taxation under the Supplementary Revenue Act next year.

The basis of taxation is the cash value of the land without taking into account any improvements made upon the land by the expenditure of capital or labor. In working out this cash value there are only three matters which are required to be taken into consideration, namely:

First—The nature of the soil.

Second—The nature of the surface; that is, whether it is broken by ravines, coulees or timber, and so on.

Third—The distance of the land from a shipping point.

As the comparative values will only change under exceptional circumstances, as, for example, where a new railroad passes through the locality, and as this is the third and last consideration, it will be noted that once a value is fixed, there will not be very much change for some years. This being the case, provision has been made for a valuation by Municipal Districts only once in every five years, thus reducing the work and expense in connection with the levying of taxes. The first valuation under this scheme will be the valuation in the year 1920, the next in the year 1925, and so on. Provision has of course been made for the valuation in any year of land which becomes liable to taxation during that year, so that the fact that the general valuation is only made every five years, will not exempt land from taxation which becomes liable to assessment and taxation during any year other than that in which the general assessment is required to be made. Tax notices will of course be issued each year.

While a change from an acreage system of taxation to one according to value will cause extra work, matters will soon adjust themselves, and there should be no difficulty in administering a system of taxation along these lines. The fairness of taxation according to value will, if the matter is given due consideration, appeal to all fair-minded people as a better system of taxation than the acreage system which makes the owner of poor land, generally a poor man, pay the same amount of taxes as the owner of good land, who is generally a wealthier man and better able to pay.

One of the main objections to taxation of land according to value has arisen from the fact that many land owners are under the belief that if taxes are levied according to value, the owner of the land will have to pay taxes on the value of the land together with the value of the improvements placed upon it by hard labor and by expenditure of money. Such, however, is not the case. All provisions of the laws of the Province in regard to taxation of farm lands requires the valuation of these lands for taxation to be made on a raw land basis and there is no tax on the increased value of lands because of the improving of these lands by the expenditure of labor or money. That is, a man who improves his farm by cultivation, building of fences and putting up of buildings is not punished for doing so by having to pay taxes on such improvements. Raw land values being equal, the owner of unimproved land has just as large a tax to pay as the man who improves his farm, and if he is making no use of his land, has, in addition, to pay a Wild Lands Tax.

MUNICIPAL COUNCIL OF PINE LAKE

The Council of the Municipality of Pine Lake, No. 339, met at the Red Deer City Council Chamber on Tuesday at 1 p.m. There were present Reeve Blake, in the chair; Councillors Fiske, Reay, Egelkraut, Stuart, Darragh, and Secretary-Treasurer J. W. Hey.

The Provincial Commissioner was to be in Red Deer on June 30 at 1.30 to adjust flu accounts between the city and the M. D. Mr. Hey will appear.

The Council wanted a line as to when the Government surveyor would be in the district. Mr. Hey will write. If too late, a local man will be engaged to make surveys of road diversions, starting with Division 6.

The Department of Public Works sent written notice that hereafter the responsibility for maintenance of all district and local highways would rest on the municipality, and that the control of all works constructed by the Province within the district with the exception of main highways (the C. and E. trail) had been transferred to the district.

The form of bylaw to govern stock running at large was forwarded by the Department of Municipal Affairs. The Council decided that no stock should run at large save that of the registered owner of at least a quarter section of land in the district. Clauses 3 and 4, dealing with pounds, were struck out. Clause 6, defining restrictions as to amount of stock, was struck out. In Clause 8, the provisions of the Stray Animals Ordinance and the Herd Ordinance were retained. The bylaw was passed by the required readings, and will be sent to the Minister for his approval before a summary thereof is advertised.

The bylaw re borrowing money in advance of the collection of taxes was passed.

Mr. J. J. Gaetz, M.P.P., wrote re the A.C.R. crossing on the C. and E. trail which he considered dangerous, and requiring an overhead bridge. He asked the Council to investigate and, if they were of the same opinion, the matter could be brought before the Railway Commission. Mr. Egelkraut will report at next meeting.

Mr. Egelkraut will also report on the request of Mr. Jos. Anderson re opening road south of 27-37-28, W. 4th.

The Hail Insurance board wrote regarding procedure in the district.

Mrs. Galbraith, President, of the Local Council, brought before the Council the case of Mrs. Shaw, Red Deer West, as an applicant for a pension under the Mothers' Pension Act. The Secretary-Treasurer will investigate.

Mr. Wm. Russell will be paid $36 for loss of time through injuries incurred at a fire at Red Deer West on condition that the city pay $36, such grant not to form a precedent.

Gates will be procured for the fences through the land donated by Mr. Atter for the new road to Pine Lake.

The Secretary-Treasurer will submit a return showing lands owned by soldiers, taxes paid, and taxes in arrears.

Pay sheets 5, Div. 1, $102.20; 6, Div. 3, $195; 7, Div. 5, $15, were passed for payment.

Accounts of W. Hammond, plow, $55; Manning-Sutherland Lumber Company $16.35; A. W. Fead, $6.05; Northwest Ditching and Dredging Co., ditching in Div. 3, $108.80; Jas. Darragh, Councillor's fees for attending meetings and laying out and inspecting work, $36.20; L. C. Egelkraut, the same, $39.70. Total $252.60.

The Council adjourned at 5 o'clock to meet at Pine Lake on Saturday, July 19, at 1 p.m., at the Sandy Cove Hotel.

NEW DISCOVERY IN STEEL.

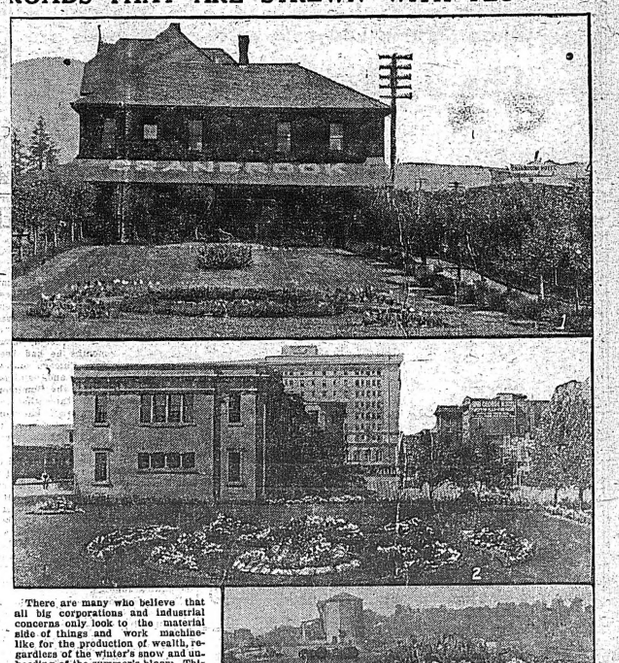

How to make high grade steel from scrap iron at a cost of about 2d per lb. has been discovered, according to an English journal. It is claimed that the new discovery, which enables the manufacture of steel without puddling at less than a twentieth of present cost, will entirely revolutionize the steel industry.

Like so many other discoveries, the new steel is the result of an accident. An American inventor named Mills had for a long time been trying to make diamonds, but, after much experiment, he only succeeded in producing very small specimens at a prohibitive cost. One day the inventor, emptying the retort used in the diamond experiments, found in the receptable a piece of iron knife blade which had broken off. Instead of being a piece of scrap iron it had become steel of extraordinary quality. He then began a series of experiments with soft iron, with the result that he identified the new alloy which had been driven into the metal under the terrific pressure inside the retort. It is claimed that the new steel is equal to anything at present known for all kinds of high-speed tool work, and also for making steel of the kind used for motor cars, aeroplane parts, razors and similar purposes.

SWEDEN FEELING THE PINCH

Sweden is the first country, among neutrals or victorious belligerents to feel the reaction that all must feel sooner or later. For the moment the good times seen to be past and general depression has set in. Many of the over-capitalized companies formed during the war have already failed. The bankruptcy of Oesterman, a speculator who promoted several industrial companies, caused great excitement and brought down many others with him. Substantial firms are involved in difficulties and hold enormous stocks of goods produced in the days of exaggerated war prices.

ROADS THAT ARE STREWN WITH FLOWERS

There are many who believe that all big corporations and industrial concerns only look to the material side of things and work machine-like for the production of wealth, regardless of the winter's snow and unbedding of the summer's bloom. This is often an erroneous idea, for it is generally realized that man does not altogether live by offices and pens and papers and engines and other accoutrements of labor—he requires trees and shrubs and flowers and the loveliness of nature.

The Canadian Pacific Railway has always paid considerable attention to the development of garden plots along its lines. It is just thirty years ago since a C.P.R. employee raised a few varieties of flower seeds in his own garden, and distributed them amongst his friends in the service of the company, with the object of promoting flower gardening at the various station plots of the railway. A vast advance has been made since then; and now the company possesses a Floral Department with headquarters at Windsor street Station, Montreal, and a Floral Committee which embraces members from the Eastern and Western lines. It is under the guidance of this department that the various station plots and other properties of the company are cleared up and beautified. Thousands of packages of flower seeds, bulbs, trees, and shrubs and large quantities of grass seeds and fertilizers have been distributed during the last few years to station agents, section foremen, caretakers of round houses, and all employees living on the property of the company. Travellers on the line observe the happy results achieved. The cultivation work is done in all cases by the employees themselves, who in most cases acquired the art of amateur gardening by taking their lessons from leaflets issued by the Floral Department. The best material is always provided. Amongst the varieties of trees supplied are: Maple, birch, beech, poplar and catalpa. Some of the shrubs are: weigelia, berberries, laurel leaf willow and sumac. Perennials distributed are: Oriental poppies, iris, phlox, veronica, gaillardia, lark spur, columbine, sweet william, and pinks. Bedding plants used include: geraniums, coleus, cannas, panates, asters, verbenas, petunias, and castor oil plants. Standard seed packets sent out contain: Nasturtiums, alyssum, mignonette, sweet peas, phlox and kochia. Ferns and house plants are given to the larger stations. The establishment and maintenance of the gardens and selection of the seeds, bulbs, and plants are supervised by Mr. B. M. Winnegar, forester of the company.

The encouraging influence of flower growing on the C.P.R. during the last thirty years has in a large measure assisted in the inauguration of floral societies all over the country. There are hundreds of C.P.R. officials connected with these societies, and most of them received their first lesson in flower culture at the C.P.R. flower beds. Flowers have improved the railway stations, and inspired by the beauty of the stations, residents of the towns have planted flowers and improved the appearances of their homes. In every division of the C.P.R. prizes are given every year for the best displays, and many of these amateur railway gardeners have tried their products with success against all comers at the big Canadian and American flower exhibitions.

THIRD SEMI-MONTHLY CROP REPORT

DEPARTMENT OF AGRICULTURE

Edmonton, June 16, 1919.

The report of May 31st on crop conditions indicated a continuation of rather favorable conditions following the period of active seeding, subject to a delay of warmth over the whole of the province and the prevalence of drying winds. In the south the moisture supply had not got beyond current requirements. Cutworms had appeared in some localities corresponding with the areas of limited moisture but really occurring generally in all of the open prairie area of the province as far north as Ponoka. This condition up to the end of the third week of May did not appear to be wholly favourable, but on May 23th a general rain set in to the extent of reviving the whole crop of the province and generally changing the overall outlook to a hope of good crop progress.

CUTWORMS

The rains at the close of the month were scarcely sufficient to put an end to cutworm troubles, and this has continued to the point of bringing about an appreciable damage of crops generally at such points as Magrath, Carmangay, Retlaw, Vulcan, Claresholm, Olds, Innisfail, Red Deer, Lacombe and Ponoka; also at points along the open eastern side of the province. Gardens have suffered in an area considerably wider and more general than the area where field crop damage has occurred.

The damage from cutworms is now practically spent. It is reported to amount to as high as 5% in a few districts in the south, but this is probably puting it rather high. Cutworms are somewhat bad in Carstairs and Olds districts to the north of Calgary. South of Calgary the worst area for cutworms is between High River and Retlaw. Grasshoppers are reported from only one district in the south, but not as a limiting factor.

MOISTURE

Since the general rain on the 23th and 29th of May there has not been a similar general rain, but there have been in nearly all parts of the province fairly satisfying local showers. In the Peace River country reports go to show that the supply during the whole of the past month has been abundant and crops are in good condition both as to grain and hay, but the progress of growth is not as rapid as it should be owing to rather cool weather. Heat and sunshine are the helps principally needed to speed up the crop. There is no damage reported in the north from cutworms and very little soil drifting.

In the central part of the province there have been frequent rains of local character. Nearly every part of Central Alberta has been well served for moisture except along the eastern half of the Canadian Northern Railway between Edmonton and Lloydminster. In the Vermilion district conditions have not been very favorable since seeding. There have been strong winds and very little rain, and in this neighborhood it will require very good conditions to bring the crop up to an ordinary average. Otherwise the crop for a hundred mile radius around Edmonton is good. It has not received the moisture that the farmers would like, but grain crops are established in good condition and, have only been held back by cool weather. The slow spring has somewhat bound up the growth of tame meadows and the top of vegetation on native pastures is not as forward as it might be but cattle and horses are both looking well.

In Southern Alberta conditions are somewhat irregular due to the unequal distribution of rains, the ravages of cutworms in special localities, the effect of winds and the variations in the strength of crop due to differences in the preparation of land. The eastern side of the south has been rather fortunate in moisture and likewise the country immediately tributary to the foothills, and rains have occurred along the middle district all the way from Red Deer to the boundary, but chiefly in short showers. In the middle south moisture is needed to save the crop on land other than summer-fallow.

It is not yet possible to predict a full crop. Conditions over most parts of the province may be safely called good, but in the area where moisture is most commonly below ideal supply there is still an aspect of precariousness. The weather, however, is apparently broken and there is ground to hope for ultimately good returns.

PENHOLD.

Mrs. Zajic has been raising money for the relief of the Bohemian orphans, and the following have contributed:

Mrs. Zajic	$38.00
Mr. Robinson	2.00
Mrs. N. Stewart	2.00
Mrs. Tomasek	2.00
Mrs. Stiginga	1.00
Mrs. Grier	1.00
Mrs. Johnson	1.00
Mrs. T. Stewart	1.00
Mrs. Barton	1.00
Mrs. Walker	1.00
Mrs. Miller	.75
Mrs. Wood	.50
Mrs. Robinson	.50
Willie Robinson	.10

Mrs. Zajic wishes to thank those who so kindly helped on behalf of the orphans, also Mrs. Zajic hopes to be able to raise a little more for this same object, and anybody who would like to help in this worthy cause is asked to do so.

The U.F.A. services were very well attended, specially the afternoon one, when the Presbyterian Church was well packed. The service was very much enjoyed, the addresses by Rev. Orton, Rev. Syter and Rev. Frazor were very appropriate, and the singing was excellent. The evening service was conducted by Mr. Jos. Smith, of Innisfail.

HOW TO GET RID OF RHEUMATISM

"Fruit-a-tives" Point the Way to Quick Relief

VERONA, ONT.

"I suffered for a number of years with *Rheumatism and severe Pains in my Side and Back*, caused by straining and heavy lifting.

When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' to me and after using the first box I felt so much better that I continued to take them; and now I am enjoying the best of health, thanks to your wonderful fruit medicine".

W. M. LAMPSON.

"Fruit-a-tives" are sold by all dealers at 50c. a box, 6 for $2.50, trial size 25c.—or sent postpaid by Fruit-a-tives Limited, Ottawa.

:o:

WOMEN OF RUSSIA

Send a Moving Appeal to Women of England Through the Salvation Army—Terrible Condition of People Vividly Described.

In the May number of "All the World," Mrs. General Booth refers to a touching appeal sent from the women of Russia to the women of England.

"In sending me the appeal," says Mrs. Booth, Colonel Larsson, who remained in Petrograd until compelled to leave, writes:

"Personally I can testify to the truth of every detail, and must add that not one-tenth is said of what could be said. If you ask anybody who has lately been in Russia, he will tell you it is true.

LOOKS TO ENGLAND

"It is difficult to know what the publishing of such a letter will accomplish. But millions in Russia look to England as their only hope, and they will feel satisfied if they know that at least their voice is heard.

"You will notice the reference to the labour of the Salvation Army, and although it is only a drop in the ocean, we have been the means of lessening some suffering, and bringing the hope of life to several.

"In Moscow several priests have become specially interested, and with tears in their eyes have thanked the Officers for the Truth. Some of them have now arranged for seats in their churches (Russian churches have no seats; every one stands), and have now begun to conduct Revival Services. One of our officers—a male Lieutenant—has already spoken in a Church on invitation of the priests, and our women-officers have been invited to do the same. This is really wonderful. For the moment our own meetings in Moscow have been stopped, but I fancy this will be overcome. Oh, if we only had more people to take up work in this tortured nation! What we do now, although with some risk, will be repaid many times later on."

The following extracts from the document referred to show the terrible state Russia is in today:

"Children—masses of them—are bribed by specially good food (most parents do but take their children away and leave them without education rather than let their souls and bodies be ruined? "Take them away at once," was a godly mother's firm decision as she spoke of her two pure girls, thirteen and fourteen years of age. Poor Mother! she did not know about the latest decree just issued by which parents have no right to keep their children at home!

"Hail the doing away with home-life and parental rule!" This is the last triumphant cry!

"Thousands of guiltless, educated persons—men and women—are seized, usually in the middle of the night, imprisoned, and kept in close confinement for months—sixteen and eighteen people together in a cell intended for one; no possibility of getting clean linen and warm clothes, no interview with the nearest relations allowed, no place to lie down at night, no food. In the middle of the night some of the cells are suddenly opened, names are called out, followed by the words "Come out as you are," which means come out to be shot.

LABOUR OF LOVE

Here let us turn for a moment from our main object, and just testify that the Salvation Army's patient labour of love in the midst of most adverse circumstances is beyond all praise. They are fast gaining the confidence, gratitude, and esteem of the population. Driven out of their quarters, straitened on all sides, most of their things seized and kept under seal for months, often weary, hungry, and deprived of the necessities of life and their usual sphere of action, they bravely stand it all, and go on cheering and helping others with unceasing devotion. And in their present nursing service they have much to endure, for the wards and beds are in a most disgraceful state of uncleanliness; and even the doctors have no authority or power to change anything. Many of them have caught the disease and succumbed. Those who are still working have no right to interfere without the sanction of some ignorant, conceited, totally incompetent individuals, who are placed over them, because doctors cannot be trusted, and must be under supervision of the proletariat."

The country fares hardly better than the towns, only there is more food. At first the ignorant, deluded people believed the declaration and promises made to them, but when they saw their own cattle seized and carried away, their bit of land lying barren with no harvest in prospect because there is no seed to sow, their fathers and brothers cast into prison for an incautious word, themselves bound hand and foot and vainly striving to break through the fetters, then they began to understand. Horrible acts of cruelty have been committed by them, but quoting a word of a peasant, "We have lost our reason, our conscience, and we have lost God," explains it all.

But the worst poison has not yet been mentioned, and it is something that makes the heart shudder with horror: A book and a weekly periodical are being circulated among the Russian people. The book, called the "Red Gospel," and full of blasphemous attacks on the holy words of Scripture. The periodical bears the same character, and its title is "The Red Christ." This is the kind of literature which is now propagated; almost all other matter is now prohibited or hidden out of sight.

CONDOR U. F. A.

The sixth meeting of the above Local was held June 13, in French's hall, at Condor.

Correspondence was read from the following:

From the Central Office, U.F.A., re Mr. Bell's letter, also one with reference to special canvass for membership and subscribers to the Guide.

From C.P.R. re petition asking for stockyards at Condor.

From the U.G.G. quotation on binder twine.

The delegates reported on convention held in Red Deer on June 11 and 12. After some appreciative remarks by the members, it was moved by Mr. Blair and Mr. Allen Blair, that the report be accepted and that the Local pay the delegates $15.00 each to cover time and expenses. Carried.

After some discussion re co-operation for the purpose of creating a local fund, it was moved by Mrs. E. N. French and Mr. R. Randebough, that we tax each member $5.00.

Moved in amendment by Mr. Miller and Mr. Wells that we try to raise the fund by voluntary contributions as by this means it would give all members a free hand to hand in as much as they saw fit, and not be limited to $5.00. The amendment carried.

The Secretary stated that as there would, by all probability, be considerable money coming in to the treasury, that he should be bonded, as it was the only safe business method considered by other organizations, and that we as a Local of the U.F.A. should fall in line.

Moved by Mrs. Eastman and Mr. Cooper, that the Secretary take steps to secure a bond of $1,000. Carried.

Moved by Mr. R. H. Blair and Mr. Frank Barton, that the Secretary get six dozen U.F.A. buttons and six dozen constitutions for the Local. Buttons to be sold to the members at 25c. each, and constitutions 10c. each. Carried.

After some discussion it was moved by Mr. Stone and Mrs. Stockwell, that the Local buy a piano.

Moved in amendment by Mrs. French and Mr. Avery, that we buy an organ.

On the amendment being put to the meeting, it was lost, and the motion to buy a piano carried.

The Secretary was instructed to write for prices on pianos from firms in Calgary, Red Deer, and Edmonton. Also to get quotations on binder twine laid down at Condor.

It was decided to hold the next meeting two weeks from to-night—June 27, at 8 o'clock.

Meeting adjourned at 12 o'clock.

C. A. WELLS,
Secretary-Treasurer.

McKIM'S DIRECTORY SHOWS MANY CHANGES IN PUBLISHING FIELD

The Canadian Newspaper Directory for 1919, just issued by the publishers, A. McKim, Limited, Advertising Agency, of Montreal, Toronto, Winnipeg, and London, England, indicates great activity in the publishing field during the past year.

While the number of daily papers published in 1918 diminishes from 135 to 126,—due mainly to the effect of the high cost of newsprint,—the total number of Canadian publications increased from 1,490 to 1,552. Fifty-five new weeklies have arisen during the past year.

Altogether, the situation warrants optimism of the soundest nature, reflecting, as it does, the healthy condition prevailing generally from East to West of the Dominion.

Whoever examines the pages of the McKim Directory with the care they deserve cannot fail to be impressed with the great labor involved in gleaning so many thousands of items of information. Not only is the entire field of Canadian publications covered, but the directory is a complete gazetteer of every town and city in Canada and Newfoundland where a publication is issued. One may turn to it for information as to population, county seats, railways and waterways, telegraph, express and banking facilities.

Especially with the new conditions arising daily—reconstruction, expansion, development—this book in its familiar green and red covers must earn its place on every office desk and in every business library.

:o:

A "WELCOME HOME" SUPPER

A most enjoyable time was spent in the Salvation Army Hall on Tuesday evening, when about seventy comrades and friends sat down to the "Welcome Home" supper given in honor of Mr. Moseley and former Chief of Police, Chas. Anderson.

The tables looked very pretty, decorated with flowers, plants and bands of red, white and blue.

Ample justice was done to the splendid repast, prepared by the ladies of the corps, after which short addresses and music brought to a close this happy occasion.

The joyous spirit of welcome accorded the guests of honor, was evidenced by no uncertain sound many times during the evening.

A splendid crop of fall rye just nicely headed was cut on the Indian Industrial School farm on Monday last, June 23. It measured over four feet in height and will be used for feed.

Mrs. John Scott, West Park, who has for some time been receiving treatment at the Memorial Hospital has returned home, but is still confined to her bed. We wish her a speedy recovery.

It looks as though there would be a shortage of hay again this year. Farmers will do well to remember that if we should have a hard winter instead of an open one like last year, hay would go to fifty dollars a ton and the greatest loss in stock would result. Put up plenty of hay is the only safe plan.

Farm listings wanted at once.—Latimer & Botterill, office Ross St.

For Sale.—Baled Hay by the bale or Ton.—Wm. Hammond, Phone 235.

If you have any property to sell, list it with the J. Malcolm Co. They sell farm lands.

Don't fail to see "Enlighten Thy Daughter" at the Lyric Thursday and Friday night.

The W.C.T.U. will meet at the home of Mrs. Stanway on Friday afternoon at 3 o'clock, instead of the usual hour.

The Canadian Pacific Railway shopmen at Red Deer returned to work on Monday. The strike at Winnipeg has also been settled so far as the Dominion Express men are concerned.

Don't forget the Veterans' popular dance at the Armouries every Saturday night. Dancing 9 to 12. Admission, Gents., 50c.; Ladies, 25c.

The 50-50 Mutual Hail Insurance Co. is one of the very best companies known to the farmer. The J. Malcolm Co. are exclusive agents in the Red Deer territory.

JUNE 26 AND 27

Special Music by the Lyric Theatre Orchestra

SEVEN BIG ACTS

"Enlighten Thy Daughter"

An appalling but unfortunately True Story of Conditions as they Exist in our Social Life.

Two Girls—Ruth, brought up in the atmosphere of loving parents, who guide her every footstep; Lilian, brought up in an equally loving atmosphere, but through a sense of false modesty the mother hesitated enlightening her daughter until it was too late.

The disaster that befalls Lillian and the influence it works directly upon Ruth's life, tells a powerful screen story that will never be forgotten. It is a story that we see in everyday life, but goes unobserved—until brought home forcibly to us.

"Enlighten Thy Daughter"

A photoplay that has a powerful moral appeal, it reveals the shameful injustice which young girls are frequently the victims of, through ignorance for which their parents are responsible.
